NOTES TO

REPORT.

CHIEF ENGINEER'S OFFICE,
CITY HALL, *January 2, 1871.*

TO HIS HONOR THE MAYOR, AND CITY COUNCIL OF THE CITY
OF BOSTON :

Gentlemen, — By the ordinance of the city it becomes my duty, as Chief Engineer, to present the Thirty-third Annual Report of the Fire Department, being the eleventh since the introduction of Steam Engines.

I submit for your consideration a detailed statement of the organization, its workings and condition, with statistics which I trust will be of interest to every member of the government.

The items of interest presented and forming a part of this report, will be the organization of the department, a full and complete list of its members, their age, residence, and occupation, with the number of their badge. Also, a list of the hydrants and reservoirs where water can be obtained in case of fire, a list of all fires, the loss and insurance on the same as far as could be ascertained, together with such other information as the experience of the past would seem to suggest.

Upon assuming the duties and responsibilities of this office, I instituted a thorough and rigid investigation into all of the working details of the department, and issued such orders as in my judgment were demanded to place the same on a systematic basis, and secure to the city prompt and vigilant service of its members, and I have the satisfaction of stating that for good order, sobriety, discipline, and efficiency, the Fire Department of the city of Boston, as now organized, is excelled by no other in this country.

The Department as now organized has one Chief, fourteen assistant engineers, and a secretary, who are elected annually by concurrent vote of the City Council in the month of February or March; four hundred and fifty members, who are recommended by the Board of Engineers, appointed by His Honor the Mayor, confirmed by the Board of Aldermen, and hold their position as firemen during good behavior. They are divided into thirty-eight companies, as follows: Twenty-one steam engine companies, ten horse hose companies, and seven hook and ladder companies.

The Board of Engineers are assigned for duty by the Chief in the several fire districts. The following table will show the assignment for duty: —

DISTRICT 1.

East Boston.

FIRST ALARM.

Capt. Joseph Dunbar,	Capt. John S. Jacobs,
“ William A. Green,	Chief Engineer.

SECOND ALARM.

Capt. Joseph Dunbar,	Capt. John S. Jacobs,
“ William A. Green,	“ Elijah B. Hine,
	Chief Engineer.

DISTRICT 2.

North Section of the City; line from Leverett, Green, Court, and State Streets, to the end of Long Wharf.

FIRST ALARM.

Capt. William A. Green,	Capt. John S. Jacobs,
“ Elijah B. Hine,	“ Rufus B. Farrar,
“ John W. Regan,	Chief Engineer.

SECOND ALARM.

Capt. William A. Green,	Capt. John S. Jacobs,
" Elijah B. Hine,	" Rufus B. Farrar,
" John W. Regan,	" Joseph Dunbar,
" David Chamberlin,	Chief Engineer.

DISTRICT 3.

Line, South of Leverett, Green, Court, and State Streets, North and West of Boylston and Beach Streets.

FIRST ALARM.

Capt. John W. Regan,	Capt. William A. Green,
" Elijah B. Hine,	" Rufus B. Farrar,
" David Chamberlin,	Chief Engineer.

SECOND ALARM.

Capt. John W. Regan,	Capt. William A. Green,
" Elijah B. Hine,	" Rufus B. Farrar,
" David Chamberlin,	George Brown,
" John S. Jacobs,	Chief Engineer.

DISTRICT 4.

Line, South of Boylston and Beach Streets, and North of Dover and Berkeley, to Boylston Street.

FIRST ALARM.

Capt. David Chamberlin,	Capt. Zenas E. Smith,
" John W. Regan,	" William A. Green,
" Rufus B. Farrar,	Chief Engineer.

SECOND ALARM.

Capt. David Chamberlin,	Capt. Zenas E. Smith,
" John W. Regan,	" William A. Green,
" Rufus B. Farrar,	" Elijah B. Hine,
" George Brown,	Chief Engineer.

DISTRICT 5.

Line, South of Dover and Berkeley to Boylston Street, and North of Northampton Street, to Swett Street.

FIRST ALARM.

Capt. Zenas E. Smith,	Capt. David Chamberlin,
" James Munroe,	" John Colligan,
" William A. Green,	Chief Engineer.

SECOND ALARM.

Capt. Zenas E. Smith,	Capt. David Chamberlin,
" James Munroe,	" John Colligan,
" George Brown,	" Phineas D. Allen,
" William A. Green,	Chief Engineer.

DISTRICT 6.

Line, all South of Northampton Street.

FIRST ALARM.

Capt. James Munroe,	Capt. John Colligan,
" Phineas D. Allen,	Chief Engineer.

SECOND ALARM.

Capt. James Munroe,	Capt. John Colligan,
" Phineas D. Allen,	" Zenas E. Smith,
	Chief Engineer.

DISTRICT 7.

South Boston.

FIRST ALARM.

Capt. George Brown,	Capt. Zenas E. Smith,
" David Chamberlin,	" John W. Regan,
" William A. Green,	Chief Engineer.

SECOND ALARM.

Capt. George Brown,	Capt. David Chamberlin,
" Zenas E. Smith,	" John W. Regan,
" William A. Green,	Chief Engineer.

DISTRICT 8.

Dorchester.

Capt. S. H. Hebard.

RECEIPTS AND EXPENDITURES.

The expenses of the past year have been as follows: For salaries of the members as per vote of City Council, \$197,476.31. For salary of Inspector of unsafe buildings, which is charged to this Department, \$1,017.25. For the purchase of new apparatus, horses and harnesses, \$33,137.46. For the expense of the Committee on Fire Department, \$5,317.79. For the Parade of the Department upon the anniversary of the settlement of Boston, \$3,355.53. For appropriation made by the City Council for the relief of injured firemen, \$675.00. For the purchase of hose and repairing, \$26,347.36. For the use of water for the extinguishment of fires, charged to the appropriation of this department, as per vote of the City Council, \$54,990.00. For repairs on hydrants and reservoirs, \$3,388.86. For the furnishing of supplies, such as fuel, gas, hay, grain, oils, etc., \$88,473.51.

The receipts of the department the past year for the sale of manure, condemned hose, old material and horses that became unfit for service, amounts to \$4,125.81, which has been paid in to the City Treasurer.

For a detailed statement of the expenditures of this department, see table of expenditures.

FIRES.

During the past year the number of fires have exceeded the number of any previous year during the organization of this department, there having been four hundred and ninety-seven, an increase of one hundred and twelve over the previous years. Yet we have to congratulate our citizens that of this large.

number of fires there has been but one serious conflagration, namely, that at East Boston, on the 25th of July, — one of the warmest days of the season, and during the dryest time that Boston ever experienced, everything being thoroughly prepared by the rays of a scorching sun for just such a conflagration as took place. It was conquered only by the almost superhuman efforts of the members of this department, and by the valuable assistance rendered by Chelsea and Cambridge, for which the department feels under great obligations.

The total loss by fires this year amounts to \$855,571, divided and classed as follows: On buildings, \$295,043; on merchandise, \$560,528. The total insurance amounts to \$786,463; with \$264,203 on buildings, and \$522,260 on merchandise. For full particulars of each fire, see tables of fires during the year.

FIRES AND THEIR EXTINGUISHMENT.

Under the present organization of our department the extinguishment of fires is a duty and not a pastime. Each member is assigned to duty by his foreman. Knowing how much depends on him personally for the accomplishment of the work to which he is called by alarms from time to time, he enters upon it with a consciousness that the Chief demands prompt and determined action. With this feeling pervading the entire organization, success must attend their efforts if directed properly; but in the fight for the mastery their efforts seem to be baffled at every point in our large ware-houses by the constant practice of blocking up every window with merchandise, and leaving only narrow passage-ways through each story. To ascend the stairways is frequently rendered impossible by the density of the smoke; to fight it from ladders is impracticable, as a direct application of water cannot be made to the burning mass; hence the interior of the building becomes in a short time a solid body of fire, acting as a blast furnace to melt the

most solid structures, and thousands of dollars worth of property are destroyed unnecessarily by this eagerness to occupy every inch of room in our warehouses. I hope this matter will receive from the committee on legislative matters of our city that attention its importance demands.

CAUSES OF FIRE.

It appears from the statistics of fires in every large city in our Union, that thirty per cent have been traced to the following causes, viz: The deposit of ashes in wooden boxes or barrels, where they have been known to retain their heat sufficient for weeks to set fire. As it is the duty of the city to use all proper means to prevent, as well as to extinguish fires, I would recommend that the city, by ordinance, compel the owners or occupants to construct bins of incombustible material, or use iron vessels, for the deposit of ashes in all dwellings and stores in the city.

Defective flues, the result of faulty masonry, and other causes, are a fruitful source of fires. To this cause of fires the chief engineer's attention has been called many times during the past year, by the complaint of our citizens; yet he is powerless to remedy the evil. Look in whatever direction you may, you will see chimneys, partially or completely honey-combed, from the action of the coal gases, and their tops out of line, so as to jeopardize, in windy weather, the lives and limbs of pedestrians passing along the streets. I would ask the attention of the City Council to this evil.

HOT AIR FURNACES AND STEAM FOR WARMING BUILDINGS.

The unsafe manner in which hot air furnaces and steam pipes are constructed must be apparent to all, from the large number of fires constantly taking place in every town and city in the State, and especially in churches and large public buildings. It would seem almost incredible that such a manifest disregard for

the safety of life and property could exist; but such is the fact. I know that many, and especially those that are engaged in putting in steam pipes for heating, assert that fire cannot be produced by steam pipes coming in contact with wood; but years of experience in this department have proved to the contrary; for wood, subjected to a constant heat, becomes in time chemically changed in its nature, desiccation is constantly going on, exhausting the oxygen contained in the wood in its natural state, leaving it composed of nearly pure carbon, when the slightest increase of heat over that to which it is ordinarily subjected will produce combustion. Then, again, in case of fire in the building, from any other cause, with steam pipes improperly constructed, the wood, by contact, becomes as described above, and the fire appears in all parts of the building at one and the same time, thereby rendering the efforts of the firemen unavailable to its early extinguishment.

UNSAFE BUILDINGS.

The subject of unsafe buildings made so by poor construction and constant alterations, to convert them to different business purposes—is already in the hands of the Committee of the City Council on Legislative Matters. I trust this important matter, which involves the safety of life as well as property, will receive the careful attention of the City Council, and the passage of the act now prepared, will be urged at the earliest possible time.

HOUSES.

The number of houses occupied by this department is thirty-three. They are under the charge of the Superintendent of Public Buildings. During the past four years the attention of the City Government has been directed to the wants of the department in its houses, and the present year the houses occupied by Engine Cos. Nos. 2, 5, 11 and 14, and Hook-and-Ladder Co. No. 2, have been thoroughly remodelled and made convenient

and comfortable. The houses now occupied by this department are not only creditable but an ornament to the city. The attention of the government to the comforts of the men, by affording them good quarters and facilities for bathing, has had a marked effect on the morals of the men. Their pride is at once enlisted in the neatness of their quarters, and a spirit of emulation prevails among the companies. The walls are adorned with pictures, the library cases filled with books of choice reading; their sitting-room furnished neatly and appropriately, and the men made more efficient by their moral and intellectual training in their leisure hours.

By vote of the City Council, the house recently occupied by Engine Co. No. 4, in Scollay's Building, Tremont Row, has been taken down for the purpose of widening the street. The engine has been placed in a stable on Bulfinch street, at the head of Howard street. I trust the City Council will at once purchase a site for the location of this company as near the City Hall as possible. The experience of the past has shown most conclusively that true economy to the city demands that an engine be located in this vicinity. The amount of property saved to the city by this company, on account of its location, and promptness in extinguishing so many fires in the incipient stages, thereby saving to the city a large expense which would be incurred by giving alarms, is such that I trust the price of land will not longer delay the action of the Government in the purchase of a site, and the erection of a house for this company, near the old location.

I desire also to call the attention of the City Council to the houses occupied by Hose Co. No. 2, on Hudson street; Hose Co. No. 5, on Shawmut avenue; and Hose Co. No. 7, on Cabot street; as being unfit in every particular for the purpose for which they are used. I trust the City Council will take the necessary steps to give these companies new houses. I would also call the attention to Hose House, No. 9, on B street.

This house is very much out of repair, inconvenient and uncomfortable.

HORSES.

There have been purchased for this department six pairs of horses, for the following companies, namely: One pair for Hook & Ladder No. 1, one pair for Hook & Ladder No. 2, one pair for Hook & Ladder No. 4, one pair for Engine No. 3, one pair for Engine No. 15, one horse for Hose No. 2 and one horse for Engine No. 6.

During the winter season, the force of horses is increased to the number of twenty-four, at an expense to the city of their keeping only.

Three horses which became unfit for duty in this department have been sold, and the receipts paid into the City Treasury.

HOSE.

There have been purchased, and added to this department during the past year, 10,152 feet of 2½-inch hose.

The standard for hose is as follows. Pure oak, city tanned, Baltimore, or Philadelphia leather, and warranted such, known as "overweight," the average weight of which is not less than twenty-two pounds to the side, and none to be used which shall weigh less than twenty pounds.

Copper rivets,— double riveted, twenty-two rivets to the running foot, of size known as No. 8 wire. Splices to be made with thirteen rivets, of sizes known as No. 7 wire.

Said hose, when finished with three loops and rings, to weigh not less than sixty-four pounds to each fifty feet, exclusive of the couplings, and warranted to stand a pressure of not less than (200) two hundred pounds to the square inch.

Couplings to be of the same thread as now in use by this city; the tail-bands and tail-pieces to be two inches in width and length respectively, and to be secured by three rivets.

HOSE IN THE DEPARTMENT.

33,600 $\frac{6}{12}$	feet of	2 $\frac{1}{2}$ -inch	Leather	Hose,	Good.
3,554	"	"	"	"	Poor.
1,850	"	"	Cotton	"	Good.
300	"	"	"	"	Poor.
6,051 $\frac{6}{12}$	"	"	Rubber	"	Good.
690	"	"	"	"	Poor.
50	"	2	"	Leather	Good.
50	"	2	"	"	Poor.
<hr/>					
46,146					

There has been condemned during the past year 6,150 feet of hose; and at the large fires of E. Boston, July 25th, and Highlands, July 27th, 1,119 feet was entirely burned up.

APPARATUS.

At the close of this municipal year, the apparatus connected with this department is in excellent condition, and the most thorough repair. During the last four years it has been almost entirely changed. The following is a list of the engine, hose and hook-and-ladder carriages which have been purchased during this time, to take the place of those which had become unfit for service, or which were not deemed worthy of any extensive repairs, namely: Eagle Engine, No. 3; Barnicoat, No. 4; Elisha Smith, No. 5; T. C. Amory, No. 7; Northern Liberty, No. 8; Cataract, No. 10; Tremont, No. 13; Dearborn, No. 14; Washington Hose, No. 1; Union, No. 2; Franklin, No. 3; Chester, No. 4; Suffolk, No. 5; Eliot, No. 7; Tremont, No. 8; Lawrence, No. 9; Bradlee, No. 10; Warren Hook-and-Ladder, No. 1; Franklin, No. 3; Hancock, No. 5. Of this number there were purchased during this year, Nos. 7, 10, 13 and 14, Hose 2, and Hook and Ladder No. 3.

FIRE APPARATUS AT STATIONARY POINTS.

HOSE CARRIAGES AND HOSE.

There is apparatus located at the following points, for the more immediate protection of the neighborhood, and without organized companies:—

One hose-carriage, with four hundred feet of 2-inch hose, at the Mill-dam Village.

One hose-carriage, with two hundred and fifty feet of 2-inch leather hose, at the City Hospital, on Harrison avenue, and under the care of the driver of Hose Company No. 4.

One hose-carriage at the Hook-and-Ladder house on Harrison avenue, with one thousand feet of hose.

Two hundred feet of cotton hose at City Stable, South End.

At each of the above places are the needful wrenches, goose-necks, and pipes to be used with the hose.

One hose-carriage, with 1,000 feet of 2½-inch hose, at Hose 1 house, Salem street, to be used in cases of large fires.

SPARE APPARATUS.

Deer Island. One hand engine, with 800 feet of cotton hose, belonging to the Fire Department, and stored here to be used by convicts within the prison, if required.

Steam fire-engines, formerly known as Nos. 3, 4, 5, 7 and 10 are kept as spare engines.

One hook-and ladder carriage, formerly known as No. 1, kept as spare carriage.

One hand engine at Hook-and-Ladder No. 3 House, Wareham street.

Hose-carriages, formerly known as Nos. 1, 2, 3, 5 and 8.

FIRE LADDERS.

There are fire-ladders kept in the following locations, to be used only in case of fire in the immediate vicinity, before other apparatus can be brought to bear.

Engine-house on Fourth, near K street, 4 ladders.

Station-house on Broadway, South Boston, 4 ladders.

Engine-house on Chelsea street, East Boston, 4 ladders.

Engine-house on River street, foot of Mt. Vernon street, 3 ladders.

REPAIRS.

The amount of repairs the past year has been very large. The extensive conflagration, July 25th, at East Boston, and the one following on the 27th, at the Highlands, damaged the apparatus to an extent that caused an outlay of ten thousand dollars to the department to place it where it was previous to these fires, — or two-thirds of the estimate, and one-third of the whole amount paid for repairs to the apparatus during the year. The running duty of this department must of necessity be great. With an increase of one hundred and twelve fires over the previous year, with horse railroad tracks in all of the main avenues, the wear and strain on the engines is so great, that I attribute seven-tenths of the cost to this cause alone.

FUEL WAGONS.

One fuel wagon, kept at the Hose-house, in N. Grove street; one at the old Hose-house, on Salem street; one at Engine 11 house, on Sumner street, East Boston; one at Hook-and-Ladder 3 house, on Harrison avenue; one at Engine 14 house, on Centre street, Roxbury District; one at Engine 13 house, on Cabot street, Roxbury District; one at Engine house No. 16, Lower Mills, Ward 16; one at Engine house No. 17, Meeting House Hill, Ward 16; capable of conveying about two tons each, to be used in case of large fires, when more fuel is needed than is carried on the engines.

COAL HOUSES.

No. 1 is located on Salem street. This house is in good repair, and supplies for the north and west sections of the city are taken from it in case of a large fire.

No. 2 is located on Orleans street, East Boston. This is a new house, and, in case of fire, supplies are taken for the East Boston department.

There is no house for Wagon No. 3 at present, the one formerly occupied by it having been taken down for the purpose of building house for Engine No. 7. I recommend that a building be built in the immediate vicinity for its use.

No. 4 is located at Engine-house No. 14, Roxbury District.

No. 5 is located at Hook-and-Ladder house No. 5, Fourth street, near Dorchester street, South Boston.

Other apparatus connected with this department, unless specially located, will be classed under the head of apparatus in charge of the several companies.

WATER.

Having called the attention of the City Council in my previous reports to the scarcity of water in certain sections of our city, and the entire destitution in others, for fire purposes, with the cause, and having presented, in my judgment, the remedy for the evils complained of, it would seem unnecessary for me at this time to dwell further upon the subject, but I would suggest that, upon the introduction of water in any section of our city not now supplied, large pipes, instead of the small ones now in use for distributing pipes, be laid, and the Lowry or Hill hydrant be introduced, instead of the hydrants now in use.

ANNUAL PARADE.

The two hundred and fortieth anniversary of the settlement of Boston was celebrated by the annual parade and inspection of the Boston Fire Department, which was a credit to the depart-

ment, and satisfactory to the City Government and citizens. Under the direction of the Joint Committee on Fire Department, the department assembled on Beacon street at twelve o'clock, noon, for inspection; and at half-past twelve His Honor the Mayor and the City Council, accompanied by the Shawmut Brass Band, arrived upon the ground, and marched in review under the marshalship of the Chief Engineer. The department was drawn up in line, the right resting on Berkeley street. After the review the department paraded through several of the principal streets, arriving at Faneuil Hall promptly at three o'clock, where a dinner was in waiting, furnished by the City Government. The Hall was beautifully decorated by Col. Beals, with flags, bunting, and all the paraphernalia of a fireman, with mottoes at either end of the hall. The members of the department enjoyed themselves for a couple of hours in speech-making and listening to the beautiful music that was performed at intervals by the Shawmut, Metropolitan and Brown's Bands. I trust the City Council will continue these annual parades.

By the annexation of the town of Dorchester to the city of Boston, there was turned over to this department by S. H. Hebard, Chief Engineer of Dorchester, on the 3d day of January, 1870, all of the property in possession of that department belonging to the town. The organized force of that town was as follows: 6 Steam Fire Engines, 2 Horse Hose-Carriages, and 2 Hook-and-Ladder Carriages, fully equipped for service with 17 horses. The number of men enrolled as members, was 105; classified as follows: 1 Chief Engineer; 5 Assistant Engineers; 6 Enginemen; 6 Firemen or Stokers; 10 Drivers, who act as clerks of the companies; 8 Foremen, and 69 members. The houses are the finest in the department, thoroughly adapted to the wants of a steam department, being neatly furnished in all of their apartments. By a vote of the City Council in the month of May, this force was reduced to 1 Assistant Engineer and 84 members, being a reduction of 20 men.

ACCIDENTS AT FIRES, ETC.

It becomes my painful duty to record the following casualties that have occurred to members of the department during the past year, while in the discharge of their duties.

Thomas Young, a member of Engine No. 6, while in the act of coupling hose at the Portland-street fire, January 14th, was struck by a passing team in such a manner as to throw him upon his face, thereby breaking his lower jaw.

George Demary, member of Engine No. 10, was severely burned about the face and hands while at work at the Gore Block fire, March 19th, which rendered him unfit for any duty for several months.

Assistant Engineer John S. Jacobs, who had command of the fire on the Friend-street side, at the Canal-street fire, April 30th, found it necessary, in order to attack the fire in a more direct manner, to raise a forty-foot ladder against the end wall of one of the tenement houses on Friend-street court; and by this means an important position was secured. The engineer, with Engine Company No. 4, got well at work at this point, when some one in an adjoining building pushed out the gable end of that building which was on fire. In its fall it struck Capt. Jacobs on the head, knocking him from a distance of forty feet among the debris below. This additional weight caused the wall to topple and fall, carrying with it Ex-Captain John A. Fynes, into the burning rubbish below. Capt. Bagley, who was in command, jumped to the ladder, and succeeded in clinging to it, and was rescued without injury. Capts. Jacobs and Fynes were taken up insensible, and carried to the apothecary store of Dr. T. L. Jenks, where every assistance was rendered until surgeons could be summoned, and Drs. Hall, George S. Jones, and A. Boothby arrived and dressed their wounds, and they were made as comfortable as circumstances would permit, and were removed to their respective homes. Captain Jacobs' injuries are very pain-

ful; in addition to his shoulder being broken, he received a terrible scalp wound, and internal injuries. Capt. Fynes, with the exceptions of sundry burns and bruises, had a miraculous escape.

Frank Swift, member of Engine No. 13 (who was driving the Hose Carriage at the time), while going to a fire July 17, was thrown from the carriage, and severely sprained his ankle.

William Lewis, member of Hook & Ladder No. 1, while at work at the fire 210 Washington street, July 25, fell five stories through the scuttle, which was left open by the carelessness of the occupants, receiving some very serious injuries, which will probably make him unfit for duty during his life.

Hastings A. Ladd, member of Hook & Ladder No. 1, severely cut his foot, while at work at the North-street fire, Aug. 6.

David V. Wilson, member of Hook & Ladder No. 1, while at work at the Friend-street fire, Sept. 3, ran the pick of his axe through his foot.

Thomas Merritt, member of Engine No. 4, while riding to the Otis-street fire, Sept. 21, the handle of the hose carriage upon which he was riding, broke, and threw him to the ground, thereby breaking his leg. — Charles H. Dunton, member of Engine No. 8, while running to the same fire, was knocked down and run over by a buggy.

Alexander P. Hawkins, Driver of Hose Carriage No. 10, while going to a fire Sept. 28, was thrown from the carriage and broke his toes.

Lewis Briggs, Engineman of Engine No. 4, while getting into the tender of his engine to go to a fire Oct. 13th, was knocked down and run over by the hose carriage and broke his leg, which confined him to the house for several weeks.

Capt. Phineas D. Allen, Assistant Engineer, at the fire of the Boston Lead Works, Nov. 5th, was struck by the falling timbers and seriously injured while at work inside the building at the early stages of the fire, and had it not been for some of the members of the department who were there at the time, he would in all probability have lost his life.

In submitting this statement in regard to the accidents that have occurred in the department during the past year, I cannot close without referring to the fact that a number of the members have been taken from this earth by the hand of death.

Mr. James F. Dutton, of Engine Company No. 3, died June 19th, from injuries received in falling from a staging while at his daily labor. Mr. Dutton joined the department in June, 1866.

Mr. Winfield Scott Leighton, of Hose Company No. 8, died of typhoid fever August 21st. Mr. Leighton joined the department in March, 1870.

Mr. Robert M. Young, of Hose Company No. 3, died Dec. 27th. He joined the department Dec. 1864.

BURNED TO DEATH.

Jan. 25th. A little child of Mrs. Green, aged two years, living on Albany street, was burned to death.

March 2d. Six women, employed at McBride's Cotton Factory, Ward 16, were burned to death.

March 21st. Patrick McLaughlin, employed at Wilkinson, Carter & Co.'s Oil Works, East Boston, was burned to death.

SEVERELY INJURED, BUT NOT RESULTING IN DEATH.

Jan. 17th. Miss Jennie Porter fell down stairs, receiving severe injuries, during the excitement of the fire at 959 Tremont street.

May 14th. Laura Favor was seriously burned at 82 Leverett street.

July 2d. Mrs. McQuinn, badly burned by the explosion of a kerosene oil lamp at her residence on River street, Dorchester District.

July 13th. Master D. Maggi, seriously burnt while filling a fluid lamp at 533 Washington street.

July 25th. Several firemen and citizens were severely injured by falling timbers at the East Boston fire.

Aug. 3d. Mrs. Trinder, severely burned while endeavoring to extinguish a fire at 34 Fifth street, South Boston.

Aug. 6th. A little boy aged four years, named Henry Noyes, was taken from the burning building on North street, nearly dead from suffocation.

Oct. 22d. Engine No. 11 ran over a little boy named Charles Hake, while going to a fire from box 162.

Nov 28th. A lady was run over by Hose Carriage No. 5, while going to a fire from box 53.

Dec. 16th. A man severely injured by the explosion of an oil tank in East Boston.

OTHER ACCIDENTS.

July 25th. One man killed by the falling of the grain elevator at the Lowell depot.

Aug. 5th. Several men injured and one killed by the falling of a building on the corner of Hanover and Battery streets.

Nov. 12th. A man named French was killed by the falling of the floors of the riding school on Dedham street.

In closing I desire to return my thanks to the Board of Engineers, officers and members of the department who have given me their hearty support, and for the faithful, energetic and prompt manner in which they have performed their duties during the past year.

The assistance of the officers and members of the police at fires has greatly aided the department in the discharge of their dangerous and arduous duties, for which they will accept my sincere thanks.

Finally, I desire to return my thanks to the Committee on Fire Department for the careful attention given to the requirements of the department, for their cordial support and endorsement; and also for the able, prompt and cheerful manner in which they have given me their co-operation during the year.

Respectfully submitted,

JOHN S. DAMRELL, *Chief Engineer.*

COMMITTEE ON FIRE DEPARTMENT FOR 1870.

Alderman,	WALTER E. HAWES, Chairman.

JAMES MUNROE	. .	71 Palmer st., Roxbury District.
JOHN COLLIGAN	. .	1996 Washington st. “
JOSEPH BARNES	. .	77 Princeton st., E. Boston.
SYLVESTER H. HEBARD		Temple st., Ward 16.

All of the above offices are filled annually by the City Council, in concurrence, in the months of February or March.

SECRETARY OF THE BOARD OF ENGINEERS.

HENRY W. LONGLEY, 51 Appleton street.

ASSISTANT SECRETARY.

CHARLES R. CLASSEN, 76 Fayette street.

THE ORGANIZATION AND ITS MEMBERS.

THE organization of the department, as will be seen by referring to the ordinance, is as follows:—

Each engine company in City proper, East and South Boston, has an engineman, fireman and driver (who are permanently employed), and eight hosemen, who do duty only at fires: one of the last number is designated as foreman of the hose,— Engine Companies Nos. 12, 13 and 14, located in the “Roxbury District”; those companies are composed of an engineman, fireman, and two drivers,— one to drive the engine and the other the hose carriage, who are permanently employed; and eight hosemen who do duty only at fires. The hose carriages in this district are drawn to fires separate from the engines, instead of being attached as in the other portions of the city.

Engine Companies Nos. 16, 17, 18, 19, 20 and 21 (located in the 16th Ward), have a driver and engineman who are permanently employed; and nine hosemen who do duty only at fires.

Each hose company has a driver (who is permanently employed) and eight hosemen, who do duty only at fires, and one of this number is designated as foreman of the hose.

Hook-and-Ladder Company No. 1, has a driver, foreman, assistant foreman, four axemen, four rakemen, and thirteen members.

No. 2 has a driver, foreman, assistant foreman, four axemen, four rakemen, and nine members.

No. 3 consists of a driver, foreman, assistant foreman, four axemen, four rakemen, and thirteen members.

No. 4 consists of a driver, foreman, assistant foreman, four axemen, four rakemen, and nine members.

No. 5 has a driver, foreman, assistant foreman, four axemen, four rakemen, and nine members.

No. 6 has a driver, foreman, assistant foreman, and six members.

No. 7 has a driver, foreman, assistant foreman, and six members.

MAZEPPA

STEAM FIRE ENGINE, No. 1.

HOUSE, CORNER OF FOURTH AND DORCHESTER STREETS, SOUTH BOSTON.

This engine was built at the Boston Locomotive Works, from drawing of J. M. Stone; is a reciprocating engine, and in many respects similar to the machines of Reany & Neafy, of Philadelphia. Steam cylinder, $8\frac{1}{2}$ inches in diameter; water-pump, 5 inches in diameter, and 13-inch stroke; capacity, 550 gallons per minute.

This company was organized and the engine put in service on the 19th day of December, 1859.

The weight of this engine, including the hose-carriage, with 300 feet of hose, as drawn to fires, is 10,500 pounds.

No. of badge	Names.	Age.	Residence.	Occupation.
1	Ray, John, <i>Engineer</i> ,	35	274 Gold street,	Machinist.
2	Porter, Thomas E., <i>Fireman</i> ,	34	145 C street,	Locksmith.
3	Twiss, Templeman C., <i>Driver</i> ,	31	155 F street,	Driver.
5	Wright, Fred. S., <i>Foreman</i> ,	42	1 Linden street,	Hardware dealer.

6	Twiss, Rufus F., "	34	231 Third street,	Painter.
4	Healey, John C., "	27	41 Mercer street,	Teamster.

S. R. SPINNEY

STEAM FIRE ENGINE, No. 2.

HOUSE ON FOURTH STREET, BETWEEN L AND K, SOUTH BOSTON.

This engine was built by the Amoskeag Manufacturing Company, at Manchester, New Hampshire. It has one steam cylinder, 8 inches in diameter, and one double-acting vertical plunger-pump, $4\frac{1}{4}$ inches in diameter, and 12-inch stroke. At a fair working speed, it will discharge 400 gallons per minute. Put into service August, 1860.

The weight of this engine, as it appears from the weigher's certificate, including 350 feet of hose, as drawn to fires, is 7,700 pounds.

No. of badge	Names.	Age.	Residence.	Occupation.
22	Twiss, George O., <i>Engineman</i> ,	39	78 Emerson street,	Machinist.
21	Ferrin, Horace F., <i>Fireman</i> ,	34	56 L street,	do.
23	Jones, Moses A., <i>Driver</i> ,	37	79 K street,	Moulder.
30	Smith, David, <i>Foreman</i> ,	48	Silver, n. Dorchester st.	Carpenter.
24	Brown, John, <i>Hoseman</i> ,	43	Sixth, c. of O street,	Blacksmith.

25	Twiss, Daniel H., "	38	Third, near E street,	Painter.
26	DeLuce, George J. "	26	720 Fourth street,	Grocer.

Admitted during the year 1870.

George J. De Luce : in place of J. B. Emerson, honorably discharged.

E A G L E

STEAM FIRE ENGINE, No. 3.

HOUSE ON WASHINGTON STREET, NEAR DOVER.

This engine was built by the Amoskeag Manufacturing Company, at Manchester, New Hampshire. It is a double-reciprocating vertical engine, 7½-inch diameter cylinders, 8-inch stroke; pumps, 4⅜ inches in diameter, and 8-inch stroke; will throw 500 gallons per minute. It has 4⅓ square feet grate-surface, 219 square feet heating-surface.

The weight of this engine, with the hose carriage and 500 feet of 2½-inch hose, as drawn to fires, is 8,100 pounds. Put into service July 1, 1867.

No. of badge	Names.	Age.	Residence.	Occupation.
41	Hutchings, Theo., <i>Engineer</i> ,	49	17 Groton street,	Machinist.
42	Hawkins, Henry M., <i>Fireman</i> ,	30	95 Village street,	Machinist.
43	Mayo, Lemuel P., <i>Driver</i> ,	47	30 Dedham street,	Driver.

89	Tucker, Jonathan M., "	52	80 Marion street,	Ship Carpenter.
87	Witherell, Eben, "	57	82 Marion street,	Ship Carpenter.

Admitted during the year 1870.

Lewis Keen : in place of Andrew J. Smith, honorably discharged.

MELVILLE

STEAM FIRE ENGINE, No. 6.

HOUSE ON WALL STREET.

This engine was built by the Amoskeag Manufacturing Company, of Manchester, New Hampshire. It has two steam cylinders, 8 inches in diameter, and 12-inch stroke; and two double-acting vertical plunger pumps, $4\frac{1}{4}$ inches in diameter, both working in the same air-chamber. At a fair working speed, it will discharge 600 gallons of water per minute. Put into service December 19, 1864.

The weight of this engine, with the hose-carriage and 300 feet of $2\frac{1}{2}$ -inch leading hose, as drawn to fires, is 10,045 pounds.

No. of badge	Names.	Age.	Residence.	Occupation.
101	Traver, J. C., <i>Engineer</i> ,	32	Engine House,	Engineer.
102	Wilson, C. C., <i>Fireman</i> ,	41	10 Coting street,	Fireman.

MAVERICK

STEAM FIRE ENGINE, No. 9.

HOUSE ON PARIS STREET, EAST BOSTON.

This engine was built by the Amoskeag Manufacturing Company, at Manchester, New Hampshire. Put into service December 26, 1859.

The pump is driven by two vertical reciprocating steam cylinders, 7½-inch diameter, and 9-inch stroke, which are connected directly with the shaft of the pump.

The pump is a rotary, and is the most generally approved one of that description known to the public. At a fair working speed, it will discharge 600 gallons of water per minute.

The weight of this engine, with the hose-carriage and 300 feet of 2½-inch hose, as drawn to fires, is 9,740 pounds.

No. of badge	Names.	Age.	Residence.	Occupation.
161	Grace, Joseph, <i>Engineer</i> ,	53	92 Eutaw street,	Engineer.
162	Young, James S., <i>Fireman</i> ,	43	103 Maverick street,	Blacksmith.

WARREN

HOOK AND LADDER, No. 1.

HOUSE ON WARREN SQUARE.

This carriage was built by Messrs. Hunneman & Co., of this city, and is constructed to carry 19 ladders of various lengths, 2 fire-hooks, 6 crotch-poles, 4 axes, 4 rakes, 8 guy-ropes, together with the necessary wrenches, hammers and dogs, 2 lanterns, and 2 fire-buckets.

The weight of this apparatus, as drawn to fires, is 6,420 pounds.

Besides the above, there are three butt-ladders, one of 25 feet, and the other, 20 feet in length, which, when connected with the tip-ladders, may be raised from 63 to 65 feet, as may be desirable. Put into service December, 1869.

WASHINGTON

HOOK AND-LADDER, No. 2.

HOUSE ON SUMNER, CORNER ORLEANS STREET, EAST BOSTON.

The carriage was originally built by William Hunt, of East Boston, but has been materially altered since it was first constructed.

The number of ladders carried is eighteen.

There are also carried on the carriage, two hooks, four axes, four rakes, two crowbars, four guy-lines, nine dogs for fastening ladders, one bucket, and ten straps.

The butt and tip ladders are so arranged as to be handily spliced, thus making perfect ladders from fifty-seven to sixty feet in length.

The weight of this apparatus, as drawn to fires, is 5,500 pounds.

RULES FOR THE DISTRIBUTION
OF
THE FIRE APPARATUS.

ENGINEER'S OFFICE, FIRE DEPARTMENT,
BOSTON, January 1, 1871.

To the Officers and Members of the Fire Department :

GENTLEMEN, — The new method of striking the Fire Alarm renders it necessary that the rules for the distribution of the apparatus should be explained, that it may be distinctly understood.

The accompanying document is furnished, definitely stating the numbers of each box, and their location, and with explanations for your guidance and instruction.

JOHN S. DAMRELL,
Chief Engineer Boston Fire Department.

CITY OF BOSTON.

FIRE-ALARM TELEGRAPH.

ALARMS are sounded by striking the number of the box upon the *Alarm Bells*, and upon the *Gongs* in the Engine-Houses.

EXAMPLES: To announce the existence of a fire near Box No. 41 (Old South Church), the bells will strike *four*, make a pause of a few seconds, then strike *one*, thus 4 — 1. This will be repeated at intervals of about one minute.

For a fire near Box No. 145 (South Boston Point), the bells will strike *one*, make a pause, then strike *four*, another pause, then strike *five*, thus: 1 — 4 — 5.

Second Alarms are sounded by striking ten blows. *Third Alarms* are sounded by striking twelve blows twice, thus: 12 — 12.

In cases where the entire department are required, alarms are sounded by striking twelve blows three times, thus: 12 — 12 — 12.

In cases where Hook & Ladder Companies *only* are wanted, signal to be given by striking ten blows once, with the number of the Company struck twice, thus: Hook & Ladder No. one 10 — 1 — 1. Hook & Ladder No. four, 10 — 4 — 4. Hook & Ladder No. seven, 10 — 7 — 7.

If more than one Hook & Ladder Company is wanted, the signal will be given thus: Hook & Ladder one and three, 10 — 1 — 1 — 3 — 3. Hook & Ladder two and four, 10 — 2 — 2 — 4 — 4. Hook & Ladder five and seven, 10 — 5 — 5 — 7 — 7.

No person will give alarms for the same fire (after the first alarm has been given), without an order from an Engineer, and the person so ordered will be *sure* to go to the *same box* from which the first alarm was given, and report the same to the Chief Engineer.

LIST OF THE NUMBERS AND LOCALITIES OF THE BOXES.

No.	LOCALITY.
2	Corner Charter street and Phipps place.
3	Corner Hull and Snowhill streets.

- 356 Corner Washington and Norfolk streets.
- 357 Engine House 18, Harvard street.
- 361 Corner Harvard st. and Blue Hill avenue.

DIRECTIONS TO THOSE HOLDING SIGNAL KEYS.

If a fire is discovered, go to the nearest Box to the fire. Pull the slide all the way down once, and let go. If POSSIBLE, wait at the Box, so as to direct the Firemen to the fire. If you hear no reply on the Bells, pull again. If no reply after the third trial, go to the nearest Box. The Police, upon hearing the Bells, will spring their rattles and call the number of the Box.

CAUTIONS.

1. BE SURE there is a fire before sounding the alarm.
2. Never sound the alarm for a fire seen at a distance.
3. Never open the Box or touch the apparatus, except in case of fire.

4. Be sure your Box is locked before leaving it.
5. Never let the key go out of your possession, unless called for by the Superintendent.
6. If you remove from your house or place of business, return the key to the Fire Alarm Office. *Don't leave it with the new tenant.*

JOHN F. KENNARD, *Superintendent*,
CITY HALL.

WILLIAM WOOLLEY,
Chairman of Committee on Fire Alarms.

JANUARY 20, 1871.

FIRE RESERVOIRS.

Where Water can be obtained in case of Fire within the City of Boston, January 1, 1871.

31. Stealing property in a building on fire or removed therefrom, how punished.
32. Jury of inquest may be called.
33. Oath of jurors.
34. Witnesses to attend.
35. Oath of witnesses.
36. Testimony, how taken.
37. Inquisition, how filed.
38. Fees and expenses.

ORDINANCE.

1. Fire department shall consist of engineers, enginemen, hose men, hook and ladder men, and others.
2. Chief and other engineers to be chosen annually; tenure of office, vacancy, and compensation.

3. Organization of Board; rank of engineers; election of secretary; his tenure of office; compensation; to be sworn and give bond.
4. Meetings of the board; may make rules and regulations for the board and for the department; have the care of all fire apparatus; their general powers and duties.
5. Secretary of board shall keep account of appropriations and expenditures, etc.
6. Engineers, powers and duties at fires. Assistant engineers to report their absence from fires.
7. In case of fires in adjoining towns.
8. Chief engineer to have sole command; his powers and duties.
9. If absent, engineer next in rank shall execute his duties.
10. Engineers shall report to the aldermen names of persons who do not obey orders at fires.
11. Three engineers may order buildings to be demolished.
12. Engineers shall examine places for combustible materials, and cause them to be removed. Penalties for not removing or for obstructing the removal. Engineers shall examine buildings containing steam engines, and buildings being erected or altered. Shall prosecute for all infractions of any laws or ordinance.
13. Gunpowder, all powers relating to the keeping and transportation of shall be exercised by the engineers.
14. Fines and penalties shall be paid into city treasury, except, etc.
15. Members of the fire department shall be twenty-one, citizens and voters.
16. All members shall sign agreement to obey all ordinances and rules and regulations.
17. Engineers to report to mayor names of persons who ought to be removed, and recommend persons to fill vacancies.
18. Members may be removed by the mayor, excepting engineers, superintendent of the fire alarms and his assistants.
19. Names of persons removed and the causes to be entered on records of engineers, and copy sent to board of aldermen.
20. Compensation of members. When absent may procure a substitute.
21. Members shall not assemble in engine houses, except, etc.
22. Members who neglect their duties, or are disorderly, to be dismissed.
23. Members serving seven years, may have a certificate, may wear the badge and perform duty.
24. Different companies to be formed by the board of aldermen.
25. Members to be paid quarterly, except, etc.
26. Engine companies to have foreman, engineman, fireman, driver, and eight hosemen. Their duties.
27. Hose companies to have foreman, driver, and eight hosemen. Their duties.
28. Hook and ladder companies to have three or more each of axemen and rakemen.
29. Engineers to make regulations respecting driver and steward of hook and ladder companies.
30. Engine, hose, and hook and ladder companies each to have foreman and clerk, and last company an assistant foreman. How to be appointed.
31. Engineman, his duties and responsibilities.
32. Foreman of engine, his duties and powers.
33. In absence of foreman of any company, assistant foreman, etc., to perform his duties.
34. Fireman to be under the immediate direction of the engineman.
35. Drivers, their duties.
36. Clerks to keep rolls, records of absences, property in care of company, and make reports.
37. Hosemen, axemen, rakemen, their duties.
38. Engineers may permit a member to sleep in hose house, etc.
39. Duties of all members of the fire department in case of fire.
40. When appointed, subject to all duties, rules, and regulations. Vacancies to be filled.
41. All members of the fire department to wear badges.
42. No uniform, except badges and insignia prescribed, to be worn.

RULES OF ENGINEERS AND ALDERMEN.

1. Firemen to wear badges.
2. Badge not to be loaned.
3. Unauthorized persons not to have badge.
4. When badge is lost.
5. Disorderly firemen to be dismissed.
6. Substitutes, how many.
7. How appointed.

STATUTES.

1. The city council of the city of Boston may establish a fire department for said city, consisting of so many engineers and other officers, and so many enginemen and other members, as the city council, by ordinance, may from time to time prescribe; ¹ and said city council shall have authority to make such provisions in regard to the time and mode of appointment, and the occasion and mode of removal of either such officers or members, to make such requisitions in respect to their qualifications and period of service, to define their office and duties, to fix and pay such compensation for their services, and, in general, to make such regulations in regard to their conduct and government, and to the management and conduct of fires, and persons attending at fires, subject to the penalties provided for the breach of the city by-laws, as they shall deem expedient; *provided*, that the appointment of enginemen, hosemen, and hook and ladder men shall be made by the mayor and aldermen exclusively.

2. The powers and duties mentioned in the preceding section,

¹ The seventh section of this act (chap. 262, 1850) provided that it should not operate upon existing laws and ordinances relating to the fire department of Boston until it was adopted by the city council. The city council adopted it June 4, 1850.

or any of them, may be exercised and carried into effect by the said city council, in any manner which they may prescribe, and through the agency of any persons, or any board or boards to whom they may delegate the same.

3. The engineers or other officers of the department, so appointed as aforesaid, shall have the same authority, in regard to the prevention and extinguishment of fires, and the performance of the other offices and duties now incumbent upon firewards, as are now conferred upon firewards by the revised statutes, or the special acts relating to the city of Boston now in force. They shall also have authority, in compliance with any ordinance of said city, to make an examination of places where shavings and other combustible materials are collected or deposited, and to require the removal of such materials, or the adoption of suitable safeguards against fire. And said city council are hereby authorized to make suitable ordinances upon this latter subject-matter, under the penalties enacted in the city charter.

4. All officers and members of the fire department shall be exempted from military duty, by forthwith filing with the assessors of the city a certificate that they are enginemen, or members of the fire department, signed by the mayor and aldermen; or from serving as jurors or constables, during the time of their employment in said department.

5. The city council aforesaid are hereby authorized, whenever, and as often as they shall deem it expedient, to appropriate any sum or sums of money, in the way that may be judged by said city council most advisable, for the relief or indemnity of any officer or member of the fire department, who may sustain corporal injury, or contract sickness in the discharge of his duty, or consequent thereon.¹

6. By an act passed April 27, 1854, and accepted by the city council February 3, 1855, the city of Boston was thereby authorized to expend a sum not exceeding one thousand dollars annually under the direction of the city council, for the relief of such fire-

¹ The stat. of 1850, c. 262, repealed stat. 1822, c. 52; 1819, c. 104; 1825, c. 52; 1826, c. 97; 1828, c. 123; and 1831, c. 52.

men as shall have been disabled in the service of the said city, and for the relief of the families of such firemen as have been killed in the performance of their duties.

7. When a fire breaks out the engineers shall immediately repair thereto, and shall carry a suitable staff or badge of their office.

8. The engineers, or any three of them, present at a place in immediate danger from fire, or in their absence two or more of the civil officers present, or in their absence two or more of the chief military officers of the place present, shall have power to direct the pulling down or demolishing of any such house or building as they shall judge necessary to be pulled down or demolished, in order to prevent the further spreading of the fire.

9. Engineers or other officers may, during the continuance of a fire, require assistance for extinguishing the same, and removing furniture, goods, or merchandise from a building on fire or in danger thereof; and may appoint guards to secure the same. They may also require assistance for pulling down or demolishing any house or building when they judge it necessary; and may suppress all tumults and disorders at such fire.

10. They may direct the stations and operations of the engine-men with their engines, and of all other persons for the purpose of extinguishing the fire; and whoever refuses or neglects to obey such orders shall forfeit for each offence a sum not exceeding ten dollars.

11. If such pulling down or demolishing of a house or building is the means of stopping the fire, or if the fire stops before it comes to the same, the owner shall be entitled to recover a reasonable compensation from the city or town; but when such building is that in which the fire first broke out, the owner shall receive no compensation.

12. Whoever purloins, embezzles, conveys away, or conceals, any furniture, goods, or chattels, merchandise or effects of persons whose houses or buildings are on fire or endangered thereby, and does not within two days restore or give notice thereof to the owner, if known, or if unknown, to one of the firewards, mayor and aldermen, or selectmen of the place, shall be deemed guilty of larceny.

13. Whoever wantonly or maliciously injures a fire engine or the apparatus belonging thereto, shall be punished by a fine not exceeding five hundred dollars, or by imprisonment not exceeding two years, and be further ordered to recognize with sufficient surety or sureties for his good behavior during such term as the court shall order.

14. It shall be lawful for any one or more of the engineers aforesaid to require and compel the assistance of all or any of the inhabitants of the city; and any other persons who shall be present as spectators of any fire; and in any suit or prosecution therefor, it shall be lawful for them to plead the general issue, and give the statute in evidence; and if any person shall disobey the lawful and reasonable command of any engineer or engineers, to aid in extinguishing such fire, or in rescuing property from destruction thereby, such persons, so offending, shall be liable to a fine not exceeding twenty dollars, to be recovered in the manner provided in the twenty-first section.

15. Whoever is concerned in causing or making a bonfire within ten rods of any house or building, shall be punished by fine not exceeding twenty dollars, or by imprisonment not exceeding one month.

16. Whoever, without reasonable cause, by outcry or the ringing of bells, or otherwise, makes or circulates, or causes to be made or circulated, any false alarm of fire, shall be punished by fine not exceeding fifty dollars.

17. If any person or persons shall, within the city of Boston, roast, or cause to be roasted, any cocoa, for the purpose of manufacturing the same into chocolate, in any building whatever, excepting such as may or shall be licensed for that purpose by the major part of the engineers of the city aforesaid, he, she, or they, shall forfeit and pay for every such offence a sum not exceeding five hundred dollars, nor less than two hundred dollars.

18. Every tar kettle which shall be made use of in the city for the purpose of boiling tar for the use of any ropewalk, and every kettle, boiler, or copper for the use of any calker, graver, ship carpenter, tallow chandler, soap boiler, painter, or other like artificer, shall be so fixed, as to prevent all communication whatsoever

between the contents of such kettle, boiler, or copper, and the fire. And the fireplace under every such tar, or other kettle, boiler, or copper, shall be constructed with an arch built over the same, and secured by an iron door in sure manner as to enclose the fire therein; and every person who shall erect any tar kettle or other kettle, boiler, or copper, or use the same for any or either of the purposes aforesaid, contrary to the provisions of this act, shall for every such offence forfeit and pay a sum not exceeding three hundred dollars nor less than fifty dollars, according to the degree and aggravation of the same.

19. Every person who shall carry any fire through the streets, lanes, or on any wharves in the city, except in some covered vessel, or who shall kindle a fire in any of the places aforesaid without the permission therefor in writing of one or more of the engineers aforesaid, or shall smoke or have in his or her possession any lighted pipe or cigar in any street, lane, or passageway, or on any wharf in said city, shall forfeit and pay for each and every offence the sum of two dollars, to be recovered of the person so offending, or of his parent, guardian, master, or mistress.

20. If any person shall have in his or her possession in any ropewalk, or in any barn or stable within the city, any fire, lighted pipe, or cigar, lighted candle or lamp, except such candle or lamp is kept in a secure lantern, the person so offending shall forfeit and pay for each offence a sum not exceeding one hundred dollars, nor less than twenty dollars.

21. All and any of the penalties which are given in and by the fourteenth, and the four preceding sections, may be recovered by indictment, information, or complaint, in any court proper to try the same; and in such indictment, information, or complaint, it shall not be necessary to set forth any more of said sections than so much thereof as relates to and is necessary truly and substantially to describe the offence alleged to have been committed. And it shall be the duty of each and every one of said engineers, and they and each of them are hereby required to inquire after all offences which shall come to their knowledge, and which shall be committed against the true intent and meaning of said sections, and shall cause the same to be duly prosecuted.

22. By an act passed March 6, 1847, and re-enacted in the General Statutes, the inhabitants of any town and the government of any city in this commonwealth may order that no gun-cotton, or other substance prepared like it for explosion, shall be kept within the limits of said town or city, excepting under the regulations and penalties applicable by law to gunpowder; and if it shall be considered necessary for public safety, they may restrict the quantity to be so kept to one-fifth of the weight of gunpowder allowed by law in each case provided for.

23. The inhabitants of any town and the city council of any city in this commonwealth may make and adopt such rules and regulations in relation to the storage and sale, within the limits of such town or city, of camphene, or any similar explosive or inflammable fluid, as they may deem reasonable, and may annex penalties to any breach of such rules and regulations not exceeding twenty dollars for any one offence.¹

24. It shall not be lawful for any person or persons to keep or sell any fireworks within the city of Boston, in any quantity, without first having obtained from the chief engineer of the fire department of said city a license therefor, signed by the chief engineer or by the secretary of the board of engineers, on which shall be written or printed a copy of the rules and regulations by them established relative to the keeping, selling, or storage of fireworks within said city; and every such license shall be in force until the first day of May next ensuing the date thereof, unless sooner annulled by the board of engineers, and no longer; but such license may, prior to the expiration of that term, be renewed by the chief engineer or the said secretary, from year to year, by indorsement thereon; *provided, always*, that the board of engineers may rescind any such license, if in their opinion the person or persons have disobeyed the law or infringed on any rules or regulations established by the board of engineers; and every person who receives a license to sell fireworks as aforesaid shall pay the same the sum of one dollar, and the same sum for the renewal thereof, and all such licenses shall expire on the first day of May annually, and all moneys received for licenses

¹ See *Petroleum*, post; also *Gunpowder*.

shall be paid to the board of engineers, for the purpose of defraying the expenses of carrying this act into execution.

25. Any person or persons who have for sale, or keep in possession, any fireworks within the city of Boston, contrary to the rules and regulations established by the board of engineers herein mentioned, or who shall sell any fireworks in said city without first having obtained from the said chief engineer or his secretary, a license as aforesaid, shall forfeit a sum not less than fifteen nor more than fifty dollars for each offence.

26. No association,¹ society, or club organized as firemen, shall be allowed in any city or town except by the written permission of the mayor and aldermen or selectmen.

27. Whoever joins, belongs to, or assembles with such association, society, or club, existing without such permission, shall be punished by fine not less than five nor more than one hundred dollars, or by imprisonment in the house of correction for a term not exceeding three months.

28. The provisions of the two preceding sections shall be in force in those cities and towns only which have adopted or may adopt the same.

29. Whoever, within twenty-four hours prior to the burning of a building or other property, wilfully and maliciously cuts or removes any bell-rope in the vicinity of such building or property, or cuts, injures, or destroys any engine or hose or other apparatus belonging to an engine in said vicinity, shall be deemed guilty of the burning as accessory before the fact, and be punished accordingly.

30. Whoever, during the burning of a building or other property wilfully and maliciously cuts or removes any bell-rope in the vicinity of such building or property, or otherwise prevents an alarm being given, or cuts, injures, or destroys an engine or hose or other apparatus belonging to any engine in said vicinity, or otherwise wilfully and maliciously prevents or obstructs the extinguishing of any fire, shall be deemed guilty of the burning, as

¹ For the incorporation of the Charitable Association of the Boston Fire Department, and a subsequent act respecting the same, see 1829, c. 44, and 1838, c. 131.

accessory after the fact, and be punished by imprisonment in the state prison not exceeding seven years, or in the jail not exceeding three years, or by fine not exceeding one thousand dollars.

31. Whoever steals in a building that is on fire, or steals any property, removed in consequence of an alarm caused by fire, shall be punished by imprisonment in the state prison not exceeding five years, or by fine not exceeding five hundred dollars, and imprisonment in the jail not exceeding two years.

32. When property is destroyed by fire, and a complaint, within thirty days thereafter, is subscribed and sworn to by any person before any police court, or any municipal court, or any trial justice, alleging that reasonable grounds exist for believing that the fire was caused by design, and a majority of the mayor and aldermen or selectmen of the city or town respectively in which said property is situated certify in writing, that in their opinion, the same is a proper case for investigation, such court or justice shall forthwith issue a warrant to a constable of the place where the property was destroyed, requiring him forthwith to summon six good and lawful men of the county to appear before the court, or justice, at a time and place expressed in the warrant, to inquire when and by what means the fire originated; which warrant shall be served and returned in the manner prescribed in section three, of chapter one hundred and seventy-five of the General Statutes; and the constables and jurors shall be subject to the penalties therein specified for similar neglects. If any person so summoned does not appear, the constable shall, by order of the justice or court, return some person from the bystanders to complete the number.

33. The justice or court shall, in view of the spot on which the property was destroyed, administer to the persons thus summoned or returned the following oath: "You solemnly swear, that you will diligently inquire and true presentment make, on behalf of this Commonwealth, when and by what means the fire which has here occurred was caused, and that you will return a true inquest according to your knowledge and such evidence as shall be laid before you. So help you, God."

34. The justice or court may issue subpoenas for witnesses

returnable forthwith at a time and place therein set forth. Their attendance may be enforced in like manner as if they had been subpoenaed in behalf of the Commonwealth.

35. An oath to the following effect shall be administered to such witnesses: "You solemnly swear, that the evidence which you shall give to the inquest, concerning the origin of the fire of which inquiry is now to be made, shall be the truth, the whole truth, and nothing but the truth. So help you, God."

36. The testimony shall be reduced to writing by the presiding justice, or some person by his direction, and subscribed by the witnesses.

37. The jury, after hearing the testimony and making all needful inquiry, shall draw up and deliver to the justice or court their inquisition under their hands, in which they shall find and certify when and by what means the fire was caused; and said inquisition and testimony thus subscribed shall, within one week thereafter, be filed by the magistrate with the clerk of the courts for the county, or in the county of Suffolk with the clerk of the municipal court.

38. The fees of the magistrate, and the expenses of the inquisitions, shall be the same, and be returned, audited, certified and paid in like manner as is provided for coroners' inquests.

ORDINANCE.¹

SECTION 1. The fire department shall consist of a chief engineer, fourteen assistant engineers, of whom two shall be residents of East Boston, and of as many foremen, enginemen, hosemen, and hook and ladder men, and other persons, who shall be divided into companies, as the number of engines and the number and quantity of other fire apparatus belonging to the city, shall from time to time require.

There shall be appointed, annually, in the month of January, a Joint Committee of the City Council, to be called the Committee on the Fire Department, to consist of three members of the Board

¹ An ordinance in relation to the fire department, passed August 20, 1861, and amended November 26, 1861; May 1, 1866, February 26, 1869; September 10, 1869.

of Aldermen and five members of the Common Council ; and said committee may expend not exceeding five hundred dollars from the annual appropriation of the City Council.

SECT. 2. There shall be elected annually, on the first Monday in February, or within sixty days thereafter, by a concurrent vote of the two branches of the city council, a chief engineer and fourteen assistant engineers, of whom two shall be residents of East Boston ; they shall hold their office for one year from the first Monday of April in the year in which they are elected, and, unless sooner removed, until their successors shall be elected and qualified. They may be removed at the pleasure of the city council, and all vacancies for the unexpired term may be filled at any time. They shall receive such compensation as the city council may from time to time determine.

SECT. 3. On the first Monday of April, annually, the chief and assistant engineers shall meet and organize themselves as a board of engineers. The chief engineer shall preside at said meeting, and at all meetings of the board, when present ; but in his absence the senior assistant engineer in service present shall preside ; and their seniority in rank, and all questions relative thereto, shall be determined by the Board of Aldermen. The board of engineers may recommend to the city council some person to be elected secretary of said board, and the city council shall, on the first Monday of April, or within thirty days thereafter, by concurrent vote, elect a secretary, who shall hold his office for one year from the first Monday of May in the year in which he is elected, and, unless sooner removed, until his successor shall be elected and qualified. He may be removed, and a vacancy may be filled as provided for in the case of the engineers, in the second section of this ordinance. He shall receive such compensation as the city council may from time to time determine. He shall be sworn, and give bond with surety for the faithful performance of his duty, in such sum as the board of aldermen may direct.

SECT. 4. The engineers shall, at such times as they may by their by-laws determine, hold such meetings as may be necessary for the prompt transaction of all business coming before them, and a majority of the whole board shall be necessary to constitute

a quorum. They may make such rules and orders for their government as a board of engineers as they may see fit, subject to the approval of the joint committee of the city council. They shall be responsible for the discipline, good order, and proper conduct of the whole department, both officers and men, and for the care of all houses, engines, hose-carriages, hook and ladder carriages, horses, furniture, and apparatus thereto belonging. They shall have the superintendence and control of all the engine and other houses used for the purposes of the fire department, and of all the horses, furniture, and apparatus thereto belonging, and of the engines and all other fire apparatus belonging to the city, and over the officers and members of the several companies attached to the fire department, and over all persons present at fires; and they may make such rules and regulations for the better government, discipline, and good order of the department, and for the extinguishment of fires, as they may from time to time think expedient; — such rules and regulations not being repugnant to the laws of this commonwealth, nor to any ordinance of the city, and being subject to the approval of the joint committee of the city council, and to alteration or revocation by them at any time.

SECT. 5. The secretary to the board of engineers shall perform the ordinary duty of clerk to the board, and such other duties as the joint committee of the city council, or the chief engineer, may from time to time direct; and also such other duties as the board of engineers, by their rules and orders, to be approved by the joint committee of the city council, may from time to time determine. He shall keep an account of the appropriations made by the city council for the use of the fire department, and of the expenditures on account of the same; and shall compare his account monthly with the auditor's books, and see that the expenditures of the fire department do not at any time exceed the amount of the appropriations at its disposal. He shall also keep a separate account of the expenses of each engine, hose carriage, and hook and ladder carriage, and of the horses, furniture and apparatus thereto belonging, and all other incidental expenses; and shall present to the city council, in the annual report of the chief engineer, a full and detailed statement thereof."

SECT. 6. The said engineers, whenever a fire breaks out in the section of the city to which they are assigned for duty, shall immediately repair to the place of such fire, and carry with them a suitable staff or badge of their office ; they shall take proper measures that the several engines and other apparatus be arranged in the most advantageous situations, and duly worked for the speedy and effectual extinguishment of the fire ; they shall require and compel assistance from all persons, as well members of the fire department as others, in extinguishing the fire, pulling down or demolishing any house or building if occasion require, in suppressing all tumults and disorders, removing furniture, goods, or other merchandise from any building on fire, or in danger thereof, and shall appoint stewards to secure the same. They shall also cause order to be preserved in going to, working at, or returning from fires, and at all other times when companies attached to the department are on duty. The assistant engineers shall report their absences from fires to the chief engineer at the regular monthly meetings of the board, with the reasons therefor, and he shall keep a record of the same, and, once in every three months, and oftener if required, make a report thereof, stating all the facts, to the city council. In the absence of the chief engineer, the secretary shall make said record and report.

SECT. 7. Whenever any fire occurs in either of the adjoining cities or towns, only such and so many of said engineers shall repair thither as may have been previously designated for such purpose by the chief engineer.

SECT. 8. The chief engineer shall have the sole command at fires over all the other engineers, and all officers and members of the fire department, and all other persons who may be present at fires, and shall direct all proper measures for the extinguishment of fires, protection of property, preservation of order, and observance of the laws, ordinances and regulations respecting fires ; and it shall be the duty of said chief engineer to examine into the condition of the engines and all other fire apparatus, and the horses connected therewith ; and of the engine and other houses belonging to the city and used for the purposes of the fire department ; and of the companies attached to the said department, as often as

circumstances may render it expedient, or whenever directed so to do by the City Council, or by the Joint committee of the City Council on the fire department. Whenever the engines or other fire apparatus, used by the fire department, require alterations, additions or repairs, the chief engineer, under the direction of the City Council, or of the Joint Committee on the fire department, shall cause the same to be made. It shall also be the duty of the chief engineer to receive and transmit to the City Council all returns of officers, members and fire apparatus made by the respective companies as hereinafter prescribed, and all other communications relating to the affairs of the fire department; to keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member. He shall also critically examine all the bills and accounts against the fire department, and certify, in writing, to the correctness of each item thereof before sending them to the auditor's office for payment. He shall, annually, in the month of January, and oftener if thereto requested, report to the City Council an account prepared by the secretary of the board of engineers, as hereinbefore provided, of the condition of the engine-houses, engines, fire apparatus, and other property under his charge; of the income and expenditures of the fire department for the whole of the previous year, specifying particularly the expenditure on each engine, hose carriage, and hook and ladder carriage, and of the horses, furniture, and apparatus connected therewith, as required in section five of this ordinance, together with the names of the officers and members of the various companies; the number and location of the fire alarm stations; the numbers of fires since his last report, the causes thereof, and the extent of damage, as near as can be ascertained; the general description of the buildings and property destroyed or injured since his last report, together with the names of the owners or occupants; the amount of insurance, if any; all accidents by fire which have happened within the city, with such other information or suggestions as may in his opinion be of general use,— the same to be published as the City Council may direct."

SECT. 9. In case of the absence of the chief engineer, the engineer next in rank who may be present shall execute the duties of his office with full powers.

SECT. 10. The engineers shall report to the Joint Committee of the City Council the name of every person, not a member of either of said companies, who may, contrary to law, refuse or neglect to obey any orders of any engineer, given at any fire.

SECT. 11. Whenever it is adjudged at any fire, by any three or more of the engineers present, of whom the chief engineer, if present, shall be one, to be necessary, in order to prevent the further spreading of the fire, to pull down or otherwise demolish any building, the same may be done by their joint order.

SECT. 12. The engineers shall inquire for, and examine into, all shops and other places where shavings or other such combustible materials are collected or deposited, and report at the regular monthly meeting of the board, the condition in this respect of the district to which they are assigned; and whenever, in the opinion of any two of them, the same may endanger the security of the city from fires, they shall direct the tenant or occupant of said shops or other places to remove such shavings or other combustible materials; and, in case of such tenant's or occupant's neglect or refusal so to do, they shall cause the same to be removed at the expense of such tenant or occupant, who shall, in addition, be liable to a penalty of not less than two nor more than fifty dollars for such neglect or refusal; and any person who shall obstruct the engineers or any of them in carrying out the provisions of this section, shall also be liable to a penalty of not less than two nor more than fifty dollars. The said engineers shall also take cognizance of all buildings in the city in which any steam engine is used, and of all buildings in the city in process of erection or alteration, and make a record of such as in their judgment may, from any cause, be dangerous, and forthwith report the same to the board of aldermen. The said engineers shall also cause prosecutions to be instituted in all cases of infraction of the laws relative to the erection of wooden buildings, or of any other laws or ordinances in relation to the fire department, or for the prevention of fire within the limits of the city.

SECT. 13. The power of making and establishing rules and regulations for the transportation and keeping of gunpowder within the city of Boston, and of granting licenses for the keeping and

sale thereof in the city, according to the provisions of an act entitled "An act further regulating the storage, safe-keeping, and transportation of gunpowder in the city of Boston,"¹; and of any other act or acts on the same subject, shall be exercised and performed by the chief and assistant engineers, and the power and duty of seizing any gunpowder kept or being within the city or harbor, contrary to the provisions of the said act or acts, shall be exercised and performed by the said engineers or any of them; and in case of any seizure being made by any engineer other than the chief, he shall forthwith report the same to the chief engineer, and the chief engineer shall cause all gunpowder which may have been seized as aforesaid to be libelled and prosecuted in the manner prescribed in the said acts; and all the other powers and duties granted and enjoined in and by the said act or acts shall be performed by the said chief or one of the assistant engineers.

SECT. 14. All moneys received for fines, forfeitures, and penalties arising under this ordinance or the laws of this commonwealth, regulating the storage and transportation of gunpowder, or the erection of buildings within the city of Boston, or the prevention and extinguishment of fire, unless it is by such laws otherwise specially provided, shall be paid into the treasury of the city to be applied in such way as is provided in the acts of this commonwealth.²

SECT. 15. No person under twenty-one years of age, and no person who is not a legal voter in the city of Boston, shall be an officer or member of the fire department.

SECT. 16. Every officer and every member of the fire department shall sign the following agreement, to be deposited with the board of engineers: "I, A. B. having been appointed a member of the Boston fire department, hereby signify my agreement to abide by all the ordinances of the city council, and the rules and regulations of the joint committee of the city council and of the board of engineers relating thereto." And any officer or member

¹ Act of 1813, c. 143; 1833, c. 151; 1837, c. 99; 1841, c. 58; see *Gunpowder*.

² See *Gunpowder*, where provision is made for the disposition of fines, forfeitures and penalties.

who shall neglect or refuse to sign the same, shall not be entitled to any compensation whatsoever.

SECT. 17. The board of engineers shall report from time to time to the mayor the names of such officers or members of the department, if any, as in their judgment should be removed or discharged, with their reasons therefor; and whenever, from any cause, there occurs in the department a vacancy which should be filled by the mayor and aldermen, the board of engineers shall recommend to them for their consideration the name of some proper person to fill the same.

SECT. 18. Any officer or member of the fire department, except the chief and assistant engineer, and the superintendent of fire alarms and his assistants, may at any time be removed or dismissed from the department by the mayor or deposed from any office that he may hold therein.

SECT. 19. In all cases of removal from the department, the name of the party removed with a statement of the reasons therefor, shall be entered on the records of the engineers, and a copy of the same shall be transmitted to the board of aldermen before their next regular meeting.

SECT. 20. There shall be paid to each officer and member of the department such sum as the city council may, from time to time, determine; and in case of the temporary absence of any member from the city, or his inability, in consequence of sickness, to perform his duties, he shall provide a substitute, whose name he shall return to the foreman of the company for approval; otherwise he shall be subject to all deductions which may accrue for his absence.

SECT. 21. Neither the members nor the officers of any of the companies shall assemble in any of the engine or other houses belonging to the department, except for the purpose of taking the engine or other apparatus on an alarm of fire, returning the same to the house, and taking the necessary care thereof after its return, and except as herein otherwise prescribed.

SECT. 22. Any officer or member of the fire department, who shall wilfully neglect or refuse to perform his duty, or shall be guilty of disorderly conduct or disobedience to his superiors in office,

shall for such offence, besides being subject to the penalty hereinafter provided, be dismissed from the department.

SECT. 23. Every person who shall have served according to law in the fire department for seven successive years, shall be entitled to receive a certificate thereof, signed by the mayor; and all persons who shall receive said certificate, shall be entitled to wear the badge of the department, and to do duty therein, when desired so to do by the mayor, with the advice and consent of the board of aldermen, under such organization and management as they may determine.

SECT. 24. As many engine, hose, and hook and ladder companies shall from time to time be formed by the city council as they may deem expedient, and each company shall consist of as many officers and members as may be appointed from time to time by the mayor with the advice and consent of the board of aldermen.

SECT. 25.. The officers and members of the fire department shall be paid monthly, except when otherwise ordered by the city council; and, except in case of sickness, death, or removal from the city, every officer or member thereof who shall not serve the whole of the month, or who shall be removed from the department or disposed from his office for cause, shall forfeit any and all compensation that would otherwise have been due to him at the time when such service ceased, or such deposing or removal took place.

SECT. 26. Every engine company shall have an engineman, fireman, and driver, who shall be permanently employed, and who shall at all times be in or about the engine house, except when unavoidably absent, and shall also have, until otherwise ordered, eight hosemen, including the foreman.

SECT. 27. Each hose company shall have a driver, who shall at all times, except when unavoidably absent, be in or about the house, and shall also have, until otherwise ordered, eight hosemen, including the foreman.

SECT. 28. Each hook and ladder company shall have at least three axemen and three rakesmen.

SECT. 29. The board of engineers shall make rules and regulations in respect to a driver and steward, either permanent or

temporary, of hook and ladder companies, and define their duties ; such rules and regulations, however, being subject to approval alteration, or rescission, as provided in the fourth section of this ordinance.

SECT. 30. Every engine, hose, and hook and ladder company shall have a foreman and clerk, and every hook and ladder company an assistant foreman in addition ; the foreman and assistant foreman shall be nominated annually, or whenever a vacancy occurs, by the members of the respective companies, from among their own number, and a return of the same made to the board of engineers ; and in case of rejection by them, the name of the person so rejected shall be returned to the company, and the members thereof shall select another person for approval ; and whenever any person so nominated shall be approved by the board of engineers, his name shall be sent to the board of aldermen for approval or rejection, and in case of rejection another person shall be nominated, as aforesaid, before the next regular meeting of the board of aldermen, and the like proceedings had as before ; and these officers, when approved, shall receive certificates of appointment, signed by the mayor, and shall hold their places until removed, or until others are appointed in their stead. If, upon rejection by the board of engineers or board of aldermen of any person nominated and returned as aforesaid, a suitable person is not nominated and returned by the company as aforesaid, within one week from the date of the reception of notice of such rejection, the board of engineers shall themselves send to the board of aldermen, for their approval or rejection, the name of some suitable person for the place, to be selected from the same company. And if any hook and ladder company shall not have a driver, a clerk of such company shall be nominated and selected in the same manner as the foreman.

SECT. 31. The engineman shall, under the direction of the board of engineers, have the sole care of the engine house intrusted to him, and of all the property therein belonging to the city. He shall be held personally responsible for the care and good order of the engine, and shall work and manage the same, and see that it is at all times in condition for immediate use. He

shall be accountable for the proper performance of all duties required of the fireman and driver, and, in case of any neglect or delinquency on their part, shall report the same to the chief engineer.

SECT. 32. The foreman of each engine shall, at fires, direct the placing of the engine at a suitable place to obtain a supply of water, and have the charge and direction of the hose and hosemen; and the foreman of each hose company or hook and ladder company shall have charge of the apparatus belonging to his company, and the direction thereof, and of the driver and men belonging to his company. And the foreman of every company shall preserve order and discipline, at all times, among the members of the company under him, and require of them and enforce a strict compliance with the city ordinances, the rules and regulations of the department, and the orders of the engineers.

SECT. 33. In the absence of the foreman of any company, the assistant foreman, if there be one, otherwise the senior hoseman or hook and ladder man in service present, connected with the same company, shall perform the duties of the foreman.

SECT. 34. The fireman shall be under the immediate direction of the engineman, and shall perform all the duties that may be required of him by the engineman, on the engine and in the house, including cleaning the house, the engine, and other apparatus belonging to the company, and clearing the snow and ice from the sidewalk.

SECT. 35. The drivers belonging to the respective companies shall take care of, and properly groom the horses belonging to their respective companies, see that the same are at all times ready for immediate use, convey the apparatus to the place of the fire on an alarm being sounded, and be clerks of their respective companies. And it shall, in addition, be the duty of such of the drivers as are connected with hose or hook-and-ladder companies to see that the hose or other apparatus is ready at all times for immediate use, and to keep such hose and apparatus, and the house and stable, neat and clean, and clear the snow and ice from the sidewalks in front of the respective houses, and they shall be under the immediate direction of the foremen of their respective

companies. The driver of each engine shall be under the immediate direction of the engineman, and shall, besides the duties herein prescribed to be performed by him, assist the fireman in the performance of his duties, and perform such other duties as may be required of him by the engineman.

SECT. 36. The clerks of the respective companies shall keep fair and exact rolls, specifying the time of admission, discharge, and age of the respective members of their companies, and shall also keep, in books provided by the city for that purpose, correct and faithful accounts of all city property intrusted to or connected with their respective companies, and of all absences and tardiness of the officers or members thereof, which rolls and record books shall always be subject to the order of the board of engineers, or the board of aldermen. Said clerks shall also make, or cause to be made to the chief engineer, true and accurate returns, whenever called upon so to do, of all the members, with their ages, and of all the apparatus belonging to or connected with their respective companies, and shall also report monthly, at least, to the chief engineer, all absences and tardiness aforesaid.

SECT. 37. The hosemen of each engine company and of each hose company, and the axemen and rakemen and other members of each hook and ladder company, shall perform such duties as may be required of them by their respective foremen.

SECT. 38. The board of engineers, whenever in their judgment it may be expedient, may employ or permit to stay or sleep in the house, wherein a hose carriage or hook and ladder carriage is kept, one or more members from the same company in addition to the driver.

SECT. 39. The officers and members of the several engine, hose, and hook and ladder companies shall, whenever a fire breaks out in the section of the city to which they are assigned for duty, repair to the place of the fire with their respective engines, hose, hook and ladder carriages, and other apparatus, in as orderly a manner as may be, according to the directions, if any be given, of the board of engineers, and exert themselves in the most orderly and efficient manner possible, in working and managing the said engines, hose, hooks and ladders, and other apparatus, and in per-

forming any duty that they may be called upon to do by any engineer ; and, upon permission of the chief or other engineer, they shall return said engines, hose, hook and ladder carriages, and other apparatus, in an orderly and quiet manner, to their respective places of deposit ; *provided*, that, in the absence of all the engineers, such direction or permission may be given by the respective foremen.

SECT. 40. Whenever any person has received a certificate of appointment to any office under this ordinance, he shall be thereby immediately invested with all the authority conferred, and subject to all the duties imposed by the laws, the city ordinances, and the rules and regulations of the fire department ; and whenever a vacancy occurs in the department, the same shall be filled as soon as conveniently may be.

SECT. 41. The engineers, officers, and members of the several companies shall, when on duty, wear such badges or insignia as the joint committee of the city council shall from time to time direct, to be furnished at the expense of the city, and no other person shall be permitted to wear the same, except under such restrictions and regulations as the mayor and joint committee of the city council may direct.

SECT. 42. No uniform, except such badges and insignia as are prescribed from time to time by the joint committee of the city council, shall be worn upon any occasion, by either officers or men belonging to the department, to indicate their connection therewith.¹

SECT. 43. No company shall have power to appoint or discharge any officer or member.

SECT. 44. No company shall leave the city, in case of fire in the neighboring cities and towns, except by the express order of the chief engineer or one of the assistant engineers ; and no company shall leave the city for any other purpose.

SECT. 45. No associations, or organized societies or clubs of firemen, as such, shall be allowed in the department, except by the express permission of the city council.

¹ See *Rules and Regulations*, post.

SECT. 46. No company shall be allowed to impose fines upon its members. For every absence or tardiness there shall be deducted from the pay of the absent or tardy officer or member the sum of one dollar, which amount so deducted shall be paid over at the end of each quarter to the treasurer of the company to which such officer or member shall belong, to meet the incidental expenses of the company. And if any officer or member shall have been absent or tardy at more than one-third of the fires, or alarms of fires, occurring during the month, if more than five, except in case of sickness, such absence or tardiness shall be considered good cause for his discharge from the department.

SECT. 47. The board of engineers, notwithstanding the provisions herein contained, may, with the approval of the mayor, grant to any officer or member of the fire department, if they think it compatible with the interests of the department, a vacation not exceeding two weeks in any one year upon such terms as they may think expedient.

And the mayor, with the advice and consent of the board of aldermen, may, if he sees fit, whenever any member or officer of the fire department shall not, by reason of such vacation, or sickness, or otherwise, attend to his duties in the department, appoint a substitute to act in his place during his absence.

SECT. 48. Upon an alarm or discovery of fire, the members of the police department shall immediately communicate the fact to the central station by means of the signal-boxes in the district in which the fire may be, in accordance with the rules and regulations in regard to fire alarms. And in the night time, the policemen, upon an alarm of fire being given or sounded upon the bells connected with the fire-alarm telegraph, shall immediately give further notice thereof within their respective districts by springing their rattles, crying "fire," and mentioning the district and box of the district in which the fire exists. And if any policeman neglects so to do he shall forfeit and pay a fine of not less than two, nor more than twenty dollars for every offence.

SECT. 49. Upon an alarm of fire, such of the police officers of the city as may be selected for that service, shall repair immediately, with their staves, or such other badges of office as the joint

committee of the city council may direct, to the place where the fire may be, and there use their best skill and power, under the direction of the engineers, for the preservation of the public peace, and the prevention of theft and destruction of property, and the removal of all suspected persons.

FIRE-ALARM TELEGRAPH.

SECT. 50. In the month of January in each year there shall be appointed a joint committee of the city council, consisting of two aldermen and three members of the common council, to be called the committee on the fire-alarm telegraph.

SECT. 51. The said committee shall have the care and management of the rooms, apparatus and machinery connected with the fire-alarm telegraph, and shall also have the power to appoint, upon the nomination of the superintendent, suitable persons to assist in the management of said fire-alarm telegraph, and also to discharge them, and to establish their compensation, unless it shall be specially provided for by the city council; and the said committee shall determine the persons to whom shall be intrusted the keys of the signal boxes connected with the fire-alarm telegraph, and, generally, shall have charge of the same, and control over the management thereof, subject to any special order of the city council.

SECT. 52. There shall be elected annually on the first Monday in February, or within sixty days thereafter, by concurrent vote of the two branches of the city council, a superintendent of the fire-alarm telegraph, who shall hold his office for one year, from the first Monday of April in the year in which he is elected, and until his successor is elected and qualified, or he is removed. He may be removed at the pleasure of the city council, and all vacancies may be filled at any time for the unexpired term. He shall receive such compensation as the city council shall from time to time determine.

SECT. 53. Said superintendent shall have the charge of the fire-alarm telegraph, under the direction of the committee on the fire-alarm telegraph, and shall see that the same is kept in good repair, and he shall be held responsible for the same.

SECT. 54. Alarms of fire shall be given by means of the fire-

alarm telegraph in accordance with the rules and directions heretofore established for that purpose by the committee on the fire-alarm telegraph.

SECT. 55. The committee on the fire-alarm telegraph shall have power from time to time to alter or change said rules and directions, and the same shall be binding upon all persons after said rules and directions, as altered, have been placed on file in the office of the engineers of the fire department, and with the city clerk, and the same shall then be published: but the city council shall at all times have power to alter, amend, or annul the same.

SECT. 56. No person shall open any of the signal boxes connected with the fire-alarm telegraph, for the purpose of giving a false alarm, nor interfere in any way with said boxes, by breaking, cutting, injuring, or defacing the same, nor turn the cranks therein, except in case of fire, nor tamper or meddle with said boxes or any part thereof.

SECT. 57. Any person who shall be guilty of a breach of any of the provisions of this ordinance, except as otherwise specially provided in any section thereof, shall forfeit and pay a fine of not less than two dollars nor more than fifty dollars for each offence.

RULES.¹

SECTION 1. All members of the Boston fire department, and substitutes, not exceeding two for each engine and hose company, and four for each hook and ladder company, shall wear while on duty as firemen, or at fires, in addition to the fire hat and leather badge now worn, the corporation badge, in a plain conspicuous manner on the vest or coat, and no member will be allowed to enter the line at a fire, or any building when on fire, without said badge.

SECT. 2. No member shall lend his badge on any pretext whatever, under the penalty of dismissal from the department.

SECT. 3. Any person not a member, nor regularly appointed a substitute, appearing at a fire with a badge, will be deemed guilty of a misdemeanor, and will be punished accordingly.

¹ Rules and regulations adopted by board of engineers, December 4, 1867, and approved by mayor and alderman, December 10, 1867.

SECT. 4. Any member who loses his badge, shall immediately advertise the same, and use the utmost diligence to recover it, and in case of failure shall be charged five dollars for the badge.

SECT. 5. If any member in going to, or returning from, a fire shall behave in any way unbecoming a fireman, any person aggrieved may report to the chief engineer the number of his badge; and if said fireman refuses to give his number correctly, it shall be deemed good cause for his dismissal from the department.

SECT. 6. Each engine and hose company may have substitutes not exceeding two in number, and each hook and ladder company not exceeding four, to do duty in place of persons absent from duty, as provided by city ordinance; viz, in cases of sickness or absence from the city.

SECT. 7. Said substitutes shall be approved by the chief engineer, or by the engineer of the district, upon the recommendation of the respective companies.

RULES AND REGULATIONS,

Made and established by the Board of Engineers of the City of Boston, relative to the sale, storage, and safe-keeping of fireworks in said City, in conformity with the law of this Commonwealth, made and passed on the 14th day of April, A. D. 1853.

SECTION 1. Any person or persons licensed to sell fireworks by wholesale or retail, shall not be allowed to keep any charged pieces of fireworks exposed in any windows.

SECT. 2. All rockets, bombs, shells, mines, or other explosive pieces, shall be kept in tight-covered cases; said cases shall always be kept closed except when putting in or taking out fireworks, which shall be done as expeditiously as is consistent with proper care.

SECT. 3. The board of engineers shall keep a record of all licenses granted and renewals thereof, and shall designate how and in what manner fireworks shall be kept, and no alteration shall be made unless by consent of the board. Any change made by removal shall be indorsed on the license, and no license shall be valid for any other place of business, unless so indorsed by the chief engineer or secretary of the board.

SECT. 4. Licenses will be granted on application to the office of the chief engineer of the fire department.

At a meeting of the board of engineers, held on Friday evening, April 29, 1853, the foregoing rules and regulations were unanimously adopted.

HENRY HART, *Secretary.*

CHIMNEYS AND CHIMNEY SWEEPERS.

ORDINANCE.

- | | |
|--|---|
| 1. Chimneys to be examined and repaired.
Penalty. Defective chimneys may be abated. | 3. Foul chimneys, how to be examined.
Fires not to be kept in them. Penalty. |
| 2. Sweepers of chimneys to be licensed.
Penalty. | 4. Penalty for burning chimneys, etc.
Proviso. |

ORDINANCE.¹

SECTION 1. The Board of Aldermen, upon complaint made to them, or upon their knowledge and view of any defective chimney or fireplace within this city, shall, from time to time, take effectual care that the same shall be examined and inspected; and, when in their opinion the safety of the city requires it, shall order the same to be immediately amended or repaired if the same can be properly done; otherwise, to be taken down and demolished.² And if the owner or owners of such defective chimney or fireplace shall wilfully neglect or refuse to amend, repair, or take down the same, the said owner or owners shall forfeit and pay a sum not less than one dollar nor more than twenty dollars; *provided*, that such owner or owners shall have been served with an order in writing from the board of aldermen to amend, repair or take down the said defective chimney or fireplace (as the case may be), duly certified by the city clerk; an attested copy of which order, made and certified by the said city clerk, shall be served upon such owner or owners, by any person appointed for that purpose by the said board. And the board of aldermen, for the time being, shall have full power and authority to order and direct, and they are hereby required to cause, such defective chimney or fireplace to be taken down and abated as a common nuisance; and the owner or owners of such defective chimney or fireplace shall in such case bear, satisfy, and pay the

¹An ordinance for the regulation of chimneys and chimney sweepers, passed December 28, 1825. An ordinance establishing a fire department, etc., passed June 4, 1850, § 26.

²For provisions in cases of dilapidated and dangerous buildings, see *Buildings*, ante, p. 84, § 22.

whole expense and charge of abating such nuisance, and of taking down and removing such defective chimney or fireplace.

SECT. 2. The board of aldermen are authorized and directed to appoint and license, from time to time, suitable persons to be sweepers of chimneys in this city, who, together with their apprentices, and others by them employed, shall wear such badges as the board shall appoint and direct, and whose wages and compensation for their work and service in sweeping chimneys shall not exceed the rates which have been fixed and appointed by the mayor and aldermen, or may hereafter be fixed and appointed by the board of aldermen. And if any person who shall not be appointed and licensed as aforesaid shall presume, either by himself or by his apprentices, or others by him employed, to undertake the sweeping of any chimney in this city, excepting such as are in his own occupation, every such person shall forfeit and pay a sum not less than one dollar, nor more than twenty dollars, for every offence of which he shall be duly convicted. And no inhabitant of this city shall employ any person (excepting his, or her, own servant, being in his, or her house), to sweep any of his, or her chimneys within the city, other than one of the chimney sweepers appointed and licensed as aforesaid by the board of aldermen; and if any inhabitant of this city shall employ any person other than the chimney sweepers appointed and licensed as aforesaid, in violation of the provisions of this ordinance, he, or they, shall forfeit and pay a fine not less than one dollar nor more than ten dollars.

SECT. 3. When, and so often as, complaint is made to the board of aldermen by any chimney sweeper appointed and licensed as aforesaid, or by any inhabitant of the city, against any person or persons, that their chimneys are unsafe by reason of foulness, the said board, or any other person by them empowered, is hereby directed to inspect and view, or order to be inspected and viewed, and to them reported, every such chimney complained of as aforesaid; and if upon such view, inspection, and report they shall, either from their own view, or the report of the person appointed to view, as aforesaid, judge the same to be unsafe and dangerous to make and keep fire herein by reason of foulness, they shall give notice thereof to the person or persons in the possession or occu-

pancy of the house or tenement to which such chimney or chimneys belong ; and the occupier or occupiers of such house or tenement shall forfeit and pay a sum not less than one dollar, nor more than twenty dollars, for every day in which fire shall be made and kept in such chimney or chimneys respectively by such occupier or occupiers after notice shall have been given them in manner aforesaid, until the same shall be properly and sufficiently swept.

SECT. 4. If any chimney, stove-pipe, or flue within the city shall take, or be set on fire, the occupant of the house to which such chimney, stove-pipe, or flue appertains, or the person or persons so setting the same on fire, shall forfeit and pay the sum of two dollars ; *provided*, that it shall be lawful for any person to set fire to, and burn, his chimney, stove-pipe, or flue between sunrise and noon, if the buildings contiguous are wet with rain or covered with snow ; and it shall be the duty of the chief or other engineers of the fire department to report to the board of aldermen the name of every person liable to the penalty provided by this section, in their first returns thereafter.

GUNPOWDER.

STATUTES.

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. Taking loaded arms into houses prohibited, under penalty of ten pounds. 2. Loaded arms in houses may be seized by engineers. To be sold at public auction if adjudged to be forfeited upon their complaint. 3. Appeals in such prosecutions. 4. Gunpowder, how much may be kept by any United States or State officer, and where. 5. Gunpowder kept contrary to the provisions of law, may be seized by engineers and sold. 6. Gunpowder exceeding one pound, not to be kept within two hundred yards of any wharf, or on the mainland. Forfeiture. 7. No gunpowder to be sold within the city without license from engineers. Form of license to contain rules and regulations. Time in which it shall continue in force. Engineers may rescind same. Fees for license. 8. Engineers may establish rules and regulations. 9. Gunpowder in Boston kept contrary to the provisions of law, may be seized and libelled. Service of copy and summons. Costs. Adjudication. Service may be made in any county. 10. Penalty for hindering engineers, or attempting to rescue powder. Quality and size of casks, etc., for gunpowder. 22. Casks to be marked. 23. Penalty for falsely marking. 24. Cities, etc., may order how gunpowder, etc., shall be kept. 25. Justices, etc., may issue warrants for searching places for gunpowder, etc., unlawfully kept. 26. Penalty for unlawfully keeping gunpowder, etc. |
|---|--|

STATUTES.

1. If any person shall take into any dwelling-house, stable, out-house, warehouse, store, shop, or other building within the city of Boston, any cannon, swivel, mortar, howitzer, cohorn, or fire-arm, loaded with or having gunpowder in the same, or shall receive into any dwelling-house, stable, barn, out-house, store, warehouse, shop, or other building within said city, any bomb, grenade, or other iron shell, charged with, or having gunpowder in the same, such person shall forfeit and pay the sum of ten pounds, to be

recovered at the suit of the engineers in an action of debt before any court proper to try the same; one moiety thereof to the use of said engineers, and the other moiety to the support of the poor of said city.

2. All cannon, swivels, mortars, howitzers, cohorns, fire-arms, bombs, grenades, and iron shells of any kind that shall be found in any dwelling-house, out-house, stable, barn, store, warehouse, shop, or other building, charged with or having in them any gunpowder, shall be liable to be seized by either of the engineers of said city; and upon complaint made by the said engineers to the court of common pleas,¹ of such cannon, swivels, mortars, or howitzers, being so found, the court shall proceed to try the merits of such complaint by a jury; and if the jury shall find such complaint supported, such cannon, swivel, mortar, or howitzer shall be adjudged forfeit, and sold at public auction, and one-half of the proceeds thereof shall be disposed of to the engineers and the other half to the use of the poor of the city of Boston. And when any fire-arms, or any bomb, grenade, or other shell shall be found in any house, out-house, barn, stable, store, warehouse, shop, or other building, so charged or having gunpowder in the same, the same shall be liable to be seized in manner aforesaid; and on complaint thereof made and supported before a justice of the peace, shall be sold and disposed of as is above provided for cannon.

3. Appeals were provided for in prosecutions under the two preceding sections, as was usual in other cases.

4. No commissary, or any other officer or officers, or any person or persons in the service of the United States, or acting in the department of commissary or quarter-master general of this commonwealth, shall be permitted to have, keep, or possess within the city of Boston, a greater quantity of gunpowder than four hundred pounds; and the powder so had and possessed within the said city shall be kept in a place approved of by the engineers of the said city, either under ground in a vault, or in a stone or brick building secured against explosion by fire.

5. Any gunpowder which shall be found in the possession of, or

¹ Now the superior court.

which may be had or kept within the city of Boston by any officer or officers, or any person or persons whatsoever acting in behalf or under the authority of the United States, or by any agent or servant of such officers or persons, and all gunpowder possessed, had, or kept by any officer of the commissary or quarter-master general's departments of the State of Massachusetts, or persons acting under the authority of these departments, contrary to the provisions of the preceding section, may be seized by any two or more of the engineers of the city of Boston, and the same may be libelled and condemned and sold, and the proceeds thereof distributed, as is by law provided for the forfeiture of gunpowder in other cases within said city.

6. No person, except on military duty in the public service of the United States, or of this commonwealth, shall keep, have, or possess in any building or in any place, or in any carriage, or on any wharf or on board of any ship or other vessel within two hundred yards of any wharf, or of the mainland in the city of Boston, gunpowder, in any quantity exceeding one pound, in any way or manner other than by this and the eight following sections, and by the rules and regulations hereinafter mentioned, may be permitted and allowed. And all gunpowder had, kept, or possessed contrary to the provisions of said sections and of such rules and regulations shall be forfeited, and liable to be seized and proceeded against in the manner hereinafter provided.

7. It shall not be lawful for any person or persons to sell any gunpowder, which may at the time be within the city of Boston, in any quantity, without first having obtained from the engineers of said city a license, signed by the chief engineer or by the secretary of the board of engineers, on which shall be written or printed a copy of the rules and regulations by them established, relative to keeping, selling, and transporting gunpowder within said city; and every such license shall be in force for one year from the date thereof, unless annulled by the board of engineers, and no longer; but such license may, prior to the expiration of that term, be renewed by the chief engineer or the said secretary, from year to year, by indorsement thereon; *provided, always*, that the board of engineers may rescind any such license, if in their opinion the

person or persons have disobeyed the law, or infringed any rules and regulations established by said board of engineers. And every person who shall receive a license to sell gunpowder, as aforesaid, shall pay for the same the sum of five dollars, and for the renewal thereof the sum of one dollar, which sums shall be paid to the board of engineers, for their use, for the purpose of defraying the expenses of carrying these enactments into execution.

8. The board of engineers of the city of Boston may establish rules and regulations, from time to time, relative to the times and places at which gunpowder may be brought to or carried from said city by land or water, the times when and the manner in which the same may be transported through said city, to direct and regulate the kind of carriages and boats in which the same may be so brought to, carried from, and through said city, and to direct the manner in which gunpowder may be kept by licensed dealers and other persons, and to direct and require all such precautions as may appear to them needful and salutary to guard against danger in the keeping and transportation of gunpowder.

9. All gunpowder which shall be kept, had, or possessed within the city of Boston, or brought into or transported through the same, contrary to the provisions of said sections¹ and to the rules and regulations made as aforesaid, may be seized and taken into custody by any one or more of the engineers of said city, and the same shall, within twenty days next after the seizure thereof, be libelled, by filing in the office of the clerk of the superior court for the transaction of criminal business, a libel, stating the time, place, and cause of such seizure, a copy of which libel, or the substance thereof, together with a summons or notice, which such clerk is hereby authorized to issue, shall be served on the person or persons in whose custody or possession such gunpowder shall have been seized, if such person be an inhabitant of this commonwealth, by delivering a copy thereof to such person or persons, or leaving such a copy at his, her, or their usual place of abode fourteen days at least before the sitting of the court at which the same is to be

¹ That is, §§ 6, 7, 8, 9, 10, 11, 12, 13, and 14, in the text.

heard, that such person or persons may appear and show cause why the gunpowder so seized and taken should not be adjudged forfeit. And if the powder so seized shall be adjudged forfeit, the person or persons in whose custody or possession the same was seized, or the occupant or tenant of the place wherein the same was so seized, shall pay all costs of prosecution, and execution shall be issued therefor; *provided*, that it appear to the court that such person or persons had notice of such prosecution by service as aforesaid; and in case the person or persons in whose custody or possession such gunpowder may be seized, shall be unknown to the engineer or engineers making such seizure, or in case such gunpowder, at the time of seizure, may not be in the custody or possession of any person, or if it shall appear by the return of the officers that such person cannot be found, or has no place of abode in this commonwealth, then said court shall and may proceed to adjudication thereon. And such libel or summons, and also such writ of execution for costs, shall and may be served and executed in any county in this commonwealth, and by any officer competent to execute civil process in like cases.

10. Any person or persons who shall rescue, or attempt to rescue, any gunpowder seized as aforesaid, or shall aid or assist therein, or who shall counsel and advise, or procure the same to be done, or who shall molest, hinder or obstruct any engineer in such seizure, or in conveying gunpowder so seized to a place of safety, shall forfeit and pay a fine for each offence of not less than one hundred dollars, and not exceeding five hundred dollars, to be sued for and recovered by action of the case by any person or persons who shall sue for the same in any court proper to try the same; and it is hereby made the duty of all persons to aid and assist each engineer or engineers in executing the duties hereby required.

11. The said engineers, or any of them, may enter the store or place of any person or persons licensed to sell gunpowder, to examine and ascertain if the laws, rules and regulations relating thereto are strictly observed; and on an alarm of fire may cause the powder there deposited to be removed or destroyed, as the case may require; and it shall be lawful for any one or more of the engineers of said city to enter any dwelling house or other place in

the city of Boston to search for gunpowder, first having obtained from a justice of the police court in said city a search warrant therefor, which warrant the justices of said court are hereby authorized to issue, upon the complaint of such engineer or engineers, supported by his or their oath.

12. Any person who shall suffer injury by the explosion of any gunpowder had, kept, or transported within the city of Boston, contrary to the provision of said section,¹ and of the rules and regulations established as aforesaid, may have an action of the case in any court proper to try the same, against the owner or owners of such gunpowder, or against any other person or persons who may have had the possession or custody of such gunpowder at the time of the explosion thereof, to recover reasonable damages for the injury thus sustained.

13. It shall be the duty of the engineers of the city of Boston to cause all such rules and regulations as they may make and establish, by virtue of the authority given as aforesaid, to be published in two or more newspapers printed in the city of Boston, and to cause such publication to be continued three weeks successively, for the information and government of all persons concerned.

14. All fines, penalties and forfeitures which may arise and accrue under the eight preceding sections shall and may be prosecuted for and recovered, either in the manner therein specially provided, or by indictment, complaint, or information in any court proper to try the same. And said act shall be taken and deemed to be a public act, of which all courts, magistrates, and citizens are bound to take notice as such; and in any libel, action, indictment, information, or complaint upon said act, it shall not be necessary to set forth any more of the same than so much thereof as relates to, and may be necessary truly and substantially to describe the offence alleged to have been committed.²

¹ That is, §§ 6, 7, 8, 9, 10, 11, 12, 13 and 14, in the text.

² The statute of 1833, c. 151, referred to in sect. 14, in the text, contained in sect. 12, a general repeal of acts and parts of acts inconsistent therewith, which apparently repeals stat. 1792, c. 7; 1801, c. 20; 1803, c. 120; 1807, c. 137; 1816, c. 26; and 1820, c. 47.

It also provided, that all rules and regulations made and established by the engineers, under and by virtue of the provisions of former acts, should continue to have the same force and effect until altered or annulled by the said engineers, as if this act had not been passed.

15. Any person who shall keep, have or possess any gunpowder within the city of Boston contrary to the provisions of the nine preceding sections, or to the rules and regulations of the board of engineers therein mentioned, or who shall sell any gunpowder in said city without having a license therefor, or contrary to such license or the rules and regulations aforesaid, shall forfeit a sum not less than one hundred dollars, and not exceeding five hundred dollars, for each offence; and if any gunpowder kept contrary to the said provisions or to such license or to the rules and regulations aforesaid, shall explode in any building, or on board of any ship or other vessel, or in any place in said city, the occupant, tenant, or owner of which has not then a license to keep and sell gunpowder therein, such occupant, tenant, or owner, shall forfeit a sum not less than one hundred dollars, and not exceeding one thousand dollars for each offence.

16. The several fines, penalties and forfeitures, mentioned in the ten preceding sections, shall inure to the sole use of the board of engineers of the fire department of said city of Boston; *provided, however*, that whenever, on the trial of any prosecution, under the said sections, any one or more of the said engineers shall be sworn and examined as a witness on behalf of the prosecution, a record thereof shall be made in court, and in such case the fine, penalty or forfeiture shall inure to the use of the poor of the city of Boston, to be paid over to the overseers of the poor thereof.

17. Whenever any quantity less than ten quarter-casks of gunpowder shall be seized and taken into custody by any one or more of the engineers of the fire department of the city of Boston, a libel or complaint may be filed in the clerk's office of the municipal court of said city of Boston, and the said municipal court of said city shall have jurisdiction thereof; and the like proceedings thereon (excepting a trial by jury) shall be had in said court as are provided for by the fifth section of the act passed on the twenty-fifth day of March, in the year one thousand eight hundred and thirty-three,¹ in the like cases of seizures and proceedings before the

¹ That is, the ninth section in the text

superior court, — saving always to any party aggrieved by any final judgment of said municipal court, the right of appeal and trial by jury in said superior court.

18. All fines, penalties, and forfeitures imposed by the twelve preceding sections may be sued for and recovered by the chief engineer, or any one or more of the engineers of the fire department of the said city of Boston, or by any person thereto authorized by a vote of the board of engineers of the said fire department.¹

19. Whoever wilfully and maliciously, by the explosion of gunpowder or any other explosive substance, unlawfully destroys or injures any dwelling house, office, shop, or other building, or any ship or vessel, shall be punished by imprisonment in the state prison not exceeding twenty years, or in the jail not exceeding five years, or by fine not exceeding one thousand dollars.

20. Whoever wilfully and maliciously throws into, against, or upon, or puts, places, or explodes, or causes to be exploded in, upon, or near any dwelling-house, office, shop, building, or vessel, any gunpowder or other explosive substance, or any bomb-shell, torpedo, or other instrument filled or loaded with any explosive substance, with intent unlawfully to destroy or injure such dwelling-house, office, shop, building, or vessel, or any person or property therein, shall be punished by imprisonment in the state prison not exceeding ten years, or in the jail not exceeding five years, or by fine not exceeding five hundred dollars.

21. Gunpowder manufactured in this state shall be put into strong and tight casks containing twenty-five pounds, fifty pounds, or one hundred pounds each, unless the same is well secured in copper, tin, or brass canisters holding not exceeding five pounds each, and closely covered with copper, brass, or tin covers.

22. Each cask containing gunpowder manufactured within this state, or brought into the same by land or water and landed, shall be marked on the head with black paint, in legible characters, with the word *gunpowder*, the name of the manufacturer, the weight of the cask, and the year in which the powder was manufactured ;

¹ For powers of the board of engineers to make rules and regulations relating to gunpowder, see *Fire*, ante, p. 238, § 13.

and each canister of gunpowder shall be marked with the word *gunpowder*.

23. Whoever knowingly marks a cask of gunpowder with the name of any person other than the manufacturer of the same, or changes gunpowder from a cask marked with the name of one manufacturer into a cask marked with the name of another manufacturer, shall for each offence forfeit a sum not exceeding twenty dollars.

24. The city council of a city and the inhabitants of a town may order that no gunpowder shall be kept in any place within the limits thereof, unless it is well secured in tight casks or canisters; that no gunpowder above the quantity of fifty pounds shall be kept or deposited in any shop, store, or other building, or in a ship or vessel which is within the distance of twenty-five rods from any other building or wharf; that no gunpowder above the quantity of twenty-five pounds shall be kept or deposited in any shop, store, or other building within ten rods of any other building; and that no gunpowder above the quantity of one pound shall be kept or deposited in any shop, store, or other building within ten rods of another building, unless it is well secured in copper, tin, or brass canisters, holding not exceeding five pounds each, and closely covered with copper, brass, or tin covers. They may make a like order in regard to gun-cotton, or other substances prepared like it for explosion, and, if considered necessary for public safety, may restrict the quantity to be so kept to one-fifth of the weight of gunpowder allowed by this section.

25. Upon complaint made to a justice of the peace or police court by the mayor or either of the aldermen, selectmen, or firewards of any place, that he has probable cause to suspect, and does suspect, that gunpowder, gun-cotton, or other substance prepared like it for explosion, is deposited and kept within the limits thereof contrary to law, such justice or court may issue a warrant directed to either of the constables of such place, ordering him to enter any shop, store, or other building, or vessel specified in the warrant, and there make diligent search for such gunpowder, gun-cotton, or other substance suspected to have been so deposited or kept, and to make return of his doings to said justice or court forthwith.

26. Whoever commits an offence against any order made under section twenty-four, shall forfeit a sum not exceeding twenty dollars; but the two preceding sections shall not extend to any manufactory of gunpowder, gun-cotton or other substance aforesaid, nor in any case prevent the transportation thereof through any city or town, or from one to another part thereof.

PETROLEUM AND BURNING FLUIDS.

STATUTES.

1. Inspectors of petroleum to be appointed. Compensation. Penalty for fraud or negligence.
2. Mixture of naphtha and illuminating oils regulated. Penalty for violation. Liability in case of explosion. Oils unlawfully sold to be forfeited.
3. Oils unsafe for illuminating purposes to be so branded.
4. Penalty for selling naphtha under another name.
5. Crude petroleum and its products, how to be stored. Penalty for violation.
6. Not to be manufactured, stored, etc., without a license. License to express manner and locality in which oils may be stored. Penalty for storing without a license. License to be given for one year, and revocable.
7. Search warrant may be issued upon complaint. By whom to be served.
8. Oils not to remain in streets more than twenty-four hours without special permit.
9. Cities and towns may make regulations and affix penalties.
10. Kerosene for illuminating purposes not to be sold without inspection.
11. Cities and towns may regulate the storage and sale of camphene, etc.

ORDINANCES.

1. Application to be made to the board of aldermen for a license to keep, etc., over one hundred gallons petroleum or its products. Examination of premises to be made by engineers of fire department.
2. No license shall be granted for storing, etc., upon streets, wharves, etc.
3. No license shall be granted for storing, etc., above the cellar of building unless, etc.
4. No license shall be granted for selling petroleum not inspected.
5. Licenses may be granted for manufacturing, etc., in greater quantities than one hundred gallons in suitable localities.
6. Terms of license. Engineer of fire department and inspector to be allowed to enter premises.
7. Duty of engineers of fire department to make complaint of violations of statute.
8. Persons to be licensed to keep and sell camphene and burning fluid. Penalty.
9. License, how obtained.
10. License, how long to continue.
11. Fee for license.

Order of Board of Aldermen.
Compensation of inspector.

STATUTES.

1. The mayor and aldermen of every city, and the selectmen of every town, of more than fifteen hundred inhabitants, and of every town of less than fifteen hundred inhabitants, upon the written application of five or more citizens of such town therefor, shall appoint, annually, one or more suitable persons, not interested in the sale of crude petroleum, or in the sale or manufacture of petroleum, earth rock oil, or in any of their products, to be inspector or inspectors thereof in said city or town, and fix their compensation to be paid by persons requiring their services under the provisions of this statute, and who, before entering upon the duties of their office, shall be duly sworn. Any inspector guilty

of fraud, deceit, or culpable negligence in the performance of his duties, shall be punished by fine not exceeding one hundred dollars, or imprisonment in the county jail or house of correction not exceeding one month, or by both, in the discretion of the court.

2. No person shall mix for sale, naphtha and illuminating oils, or shall sell or offer for sale such mixture, or shall sell or offer for sale, except for purposes of re-manufacture, illuminating oils made from coal or petroleum, which will evaporate a gas under one hundred degrees, Fahrenheit, or ignite at a temperature of less than one hundred and ten degrees Fahrenheit, to be ascertained by the application of Tagliabue's, or some other approved instrument, and any person so doing shall for each offence be punished by fine or imprisonment, as provided in the first section hereof; and shall also be liable therefor, to any person suffering damage from the explosion or ignition of such oil thus unlawfully sold or kept, or offered for sale; and such oil thus unlawfully sold or kept, or offered for sale, and the casks or packages containing the same, shall be forfeited and sold, one-half of the proceeds of such sale to go to the commonwealth and the other half to the informer.

3. For all the purposes of this act, all illuminating oils made from coal or petroleum, having an igniting point of less than one hundred and ten degrees Fahrenheit, to be determined in the manner provided in the second section of this act, shall be deemed to be mixed with naphtha, and shall be branded unsafe for illuminating purposes.

4. Any person who shall sell or keep, or offer for sale, naphtha under any assumed name, shall, for each offence, upon conviction thereof, be liable to the same penalties provided, and shall be subject to the same liabilities set forth in the first two sections of this act.

5. Crude petroleum, or any of its products, may be stored, kept, manufactured or refined in detached and properly ventilated buildings specially adapted to the purpose, and surrounded by an embankment constructed so as to effectually prevent the overflow of said petroleum or any of its products beyond the premises on

which the same may be kept, manufactured or refined : said buildings to be occupied in no part as a dwelling ; and if less than fifty feet from any other building, must be separated therefrom by a stone or brick wall at least ten feet high and twelve inches thick ; and any person keeping such articles in any other kind of building, except as is hereinafter provided in the sixth section hereof shall be punished by fine or imprisonment in the manner provided in the first two sections hereof.

6. No person shall manufacture, refine, mix, store, or keep for sale, any oil or fluid, composed wholly or in part of any of the products of petroleum, in any city or town, except as provided in the fifth section of this act, without a license first having been obtained from the mayor and aldermen of said city, or the selectmen of said town, and in said license there shall be expressed the manner, and the portion of any locality or building in which said articles may be mixed, stored or kept ; and whoever mixes, stores or keeps said articles in any one locality, except as aforesaid, without having first obtained a license as herein required, or having obtained such license, mixes, stores or keeps said articles in a different manner, or in any other portion of said locality or building than is expressed in said license, shall forfeit and pay a sum not exceeding five hundred dollars, to be recovered in any appropriate form of action, to be instituted in the name of the mayor of said city, or of the selectmen of said town ; and the license granted in accordance with the provisions of this act, shall continue to be in force, from the time of granting the same, until the first day of April next succeeding, unless sooner revoked ; and said license shall be revocable at all times by the authorities granting the same.

7. Upon complaint made to the justice of any municipal or police court, or to a justice of the peace, by the mayor, or by an alderman of any city or by a selectmen of any town, or by an inspector appointed under the provisions of this act, or any engineer of a fire department, fireward, chief of police, or city marshal, that he has probable cause to suspect, and does suspect, that any of the articles enumerated in this act are offered for sale, or are deposited and kept within the limits of said city or town, contrary to

the provisions of this act, said justice or court may issue a warrant, directed to any such inspector, engineer, or fireward, or to any sheriff, deputy-sheriff, constable or police officer, ordering him to enter any shop, warehouse, manufactory, or any other building specified in the warrant, to make diligent search for such articles or articles suspected to be so offered for sale, deposited or kept, and to make return of his doings to said justice or court forthwith.

8. None of the articles enumerated in this act shall be allowed to remain in any street, lane, alley or travelled way, or upon any wharf, or in any yard, or on the grounds of any railroad corporation in any city for a longer time than twenty-four hours, and in any town for a longer time than forty-eight hours, without a special permit from the mayor and aldermen of said city, or the selectmen of said town, or from some person by them duly authorized; and any and all persons so keeping such articles for a longer time, shall be punished by a fine of not more than fifty dollars for each and every such offence.

9. The city council of any city, and the inhabitants of any town, may adopt such ordinances, by-laws and regulations, not inconsistent with the provisions of this act, as they may deem reasonable in relation to the manufacture, mixing, storing, keeping or selling, within the corporate limits of said city or town, any of the articles herein enumerated, and may affix penalties for breaches thereof not exceeding fifty dollars for each offence, reasonable notice of which shall be given to all concerned.

10. No person shall sell, or keep for sale, at retail, for illuminating purposes, any kerosene, refined petroleum, or any product of petroleum, without having the same inspected and approved by an authorized inspector. Any person violating the provisions of this section shall be fined and imprisoned in the manner provided in the first section of chapter one hundred and fifty-two, of the acts of the present year.

11. The city council of any city, and the inhabitants of any town, may adopt such rules and regulations as they deem reasonable in relation to the storage and sale, within the limits thereof, of camphene, or any similar explosive or inflammable fluid, and may affix penalties for breaches thereof, not exceeding twenty dollars for any one offence.

ORDINANCES.

PETROLEUM AND ITS PRODUCTS.¹

SECTION 1. Any person desiring to manufacture, refine, mix, store or keep for sale, any oil or fluid, composed wholly or in part of any of the products of petroleum, in a greater quantity than one hundred gallons, in any one place in the city of Boston, except as provided in the fifth section of chapter one hundred and fifty-two, of the acts of the year eighteen hundred and sixty-nine, shall make application in writing for a license therefor to the board of aldermen of said city, and shall state in such application the place, building, or part of a building, for which he desires a license, and whether he desires a license for manufacturing, refining and mixing said articles, or any of them, or a license for storing and keeping them, or both. Such application shall be referred to the chief engineer of the fire department, who shall, within one week from the time of such reference, examine, or cause to be examined, by one of the assistant engineers, the place or building described in such application, and report in writing to the board of aldermen, his opinion of the propriety of granting the license applied for.

SECT. 2. No license shall be granted for manufacturing, refining, mixing, storing or keeping said articles, or any of them, upon any alley, sidewalk, street or wharf, within the limits of the city, nor in any part of a building occupied in whole or in part as a dwelling-house, nor upon any floor of a building above the first floor.

SECT. 3. No license shall be granted for mixing, storing or keeping crude petroleum, naphtha, or gasoline in any part of a building above the cellar, unless said articles are contained in metallic vessels securely closed.

SECT. 4. No license shall be granted for selling or keeping for sale at retail, for illuminating purposes, any kerosene, refined petroleum, or any product of petroleum which has not been inspected by the officer appointed for that purpose by the mayor and aldermen.

¹ An ordinance in relation to the manufacture, storage, and sale of petroleum and its products, passed September 17, 1869.

SECT. 5. Except as hereinbefore expressly provided, licenses may be granted for manufacturing, refining, mixing, storing and keeping said articles, or any of them, in cellars, or upon the first floor of buildings, or in other suitable localities, in such quantities over one hundred gallons, and in such a manner as the board of aldermen may in each case determine, except that no license shall be granted for manufacturing, refining, mixing, storing or keeping said articles, or any of them, upon the first floor of any building in a greater quantity than one hundred gallons unless the same be contained in metallic vessels securely closed, or the foundations and walls of said building be of brick, stone or iron, and the sills or walls of said buildings be built without apertures for a space of at least one foot above the floor.

SECT. 6. There shall be expressed in said license the name of the person or persons to whom the license is granted, and whether he, or they, are permitted to manufacture, refine and mix said articles, or any of them, or to store and keep them, or both, and a description of the place, building, or part of a building licensed, and any limitations upon the quantity of said articles, or any of them, which may be manufactured, refined, mixed, stored or kept therein, or upon the manner of manufacturing, refining, mixing, storing or keeping the same which the board of aldermen may in each case see fit to impose; and any person so licensed may manufacture, refine, mix, store or keep said articles, or any of them, according to the terms of his license, either on his own account, or on account of any other person. Any person holding such a license shall allow the chief engineer of the fire department, or any of the assistant engineers, or the inspector or inspectors appointed by the mayor and aldermen, to enter the premises described in the license, and take such samples of oils and make such examinations of the premises as said engineers or inspectors deem expedient. Any violation of the terms of said license shall work a revocation of the same, and the board of aldermen may revoke any license, without cause, at any time.

SECT. 7. The chief and assistant engineers of the fire department shall make complaint to the municipal court of all violations of the provisions of chapter one hundred and fifty-two, and chapter

three hundred and forty-five, of the acts of the year eighteen hundred and sixty-nine, and bring suits, in the name of the mayor of the city, against all persons who manufacture, refine, mix, store or keep for sale any oil, or fluid, composed wholly or in part, of the products of petroleum, without the license required by this ordinance.

CAMPHENE AND BURNING FLUID.¹

SECT. 8. No person shall keep for sale, or shall store in any building within the city of Boston, any camphene or burning fluid, without a license from the board of aldermen, under a penalty of not less than one, nor more than twenty dollars, for each offence.

SECT. 9. Every person desiring to obtain a license to sell or store camphene or burning fluid in said city, shall make written application therefor to the chief engineer of the fire department, stating in said application the place or building in which he desires to sell or store the said articles, and the manner in which he proposes to keep them, and the chief engineer of the fire department shall examine the premises and report to the board of aldermen his opinion of the safety of granting a license, and after his report the board of aldermen may act upon said application.

SECT. 10. All licenses granted under the provisions of the previous section shall continue and be in force from the time of granting them until the first day of April next succeeding.

SECT. 11. Every person, at the time of receiving said license shall pay therefor the sum of one dollar.

WOODEN BUILDINGS.

STATUTES.

1. No wooden building of more than sixteen feet in height, from the ground or foundation thereof, shall be erected in the city of Boston, except under the following limitations and restrictions,² namely: the dimensions of such building on the ground not

¹ An ordinance relating to camphene passed November 3, 1855.

² Accepted by citizens, May 13, 1835. Boston records of general meetings after 1830, p. 6.

to exceed twenty-five feet by fifty feet ; or, being in any other proportion, not to cover more than twelve hundred and fifty superficial feet of land ; the walls not to exceed twenty feet in height from the under side of the sills, which sills may be three feet six inches above the level of the street, to the eaves of the roof ; the roof, in the highest point thereof, not to rise more than thirty-two feet from the under side of the sills aforesaid, and there shall be at least one scuttle at or near the highest point of said roof.¹

2. When two or more such two-story buildings as are provided for in the preceding section shall be erected in connection, or within three feet of each other, or within three feet of any other wooden building, more than sixteen feet in height, there shall be an entire brick or stone wall between them, commencing from the foundation of said wall, and carried to the height of twelve feet above the level of the street, at least twelve inches in thickness, and the residue of said wall shall be at least eight inches in thickness ; and in case any openings are made through said walls, the same shall be secured against fire by iron doors applied to such openings ; *provided* that such brick or stone walls may be dispensed with by consent, in writing, of the mayor and aldermen of the city of Boston, on what are commonly called the neck lands, in said city.²

3. If any person or persons shall violate the provisions of the two preceding sections, such person or persons, on conviction thereof, in any court competent to try the same, shall forfeit and pay for every such offence a sum not less than fifty nor more than five hundred dollars, and shall be liable to a like prosecution and penalty for each and every year after such conviction, until said building or buildings, erected contrary to the provisions aforesaid, shall be removed or made to conform thereto ; and the said penalties and forfeitures incurred by virtue of this act may be recovered by indictment, to the use of the city of Boston, or by an action of debt in any court competent to try the same, one-half

¹ For provisions respecting the erection of buildings to be used for *tenements*, see *Tenement Houses*, post.

² The remainder of this section, as it stood in the original act, and the 5th section of the same act, were repealed by stat. 1850, c. 280, § 2.

to the use of the person or persons who shall sue therefor, and the residue to the use of the said city.

4. It shall be the duty of the board of engineers of the said city to cause suits to be commenced without delay against each and all who shall violate the provisions of the three preceding sections, and to prosecute the same to final judgment.¹

5. An act, passed March 27, 1847, provided that any building thereafter erected in the city of Boston, contrary to the provisions of the four preceding sections, shall be deemed and taken to be a common nuisance; and the mayor and aldermen of the said city shall have the same power and authority to abate and remove any such building as are given to the board of health, in the tenth and eleventh sections of the twenty-first chapter of the Revised Statutes²; *provided, however*, that nothing in this section shall be construed as affecting any remedies already given in the four preceding sections.

6. The city council of the city of Boston may authorize the erection of wooden buildings in those parts of said city called South Boston and East Boston, and also those parts of the city comprised in wards thirteen, fourteen and fifteen, upon such terms and conditions, and subject to such limitations and restrictions, as they may deem expedient.³

ORDINANCE.

It shall be lawful to erect wooden buildings in those parts of the city called South Boston and East Boston, which shall not be more than thirty-two feet high from the ground to the highest part thereof; *provided, however*, that no wooden building, except for mechanical purposes, shall be erected in a range of more than fifty feet in extent, without the intervention of a brick partition wall, of at least eight inches in thickness, such wall to extend six inches at least above the surface of the roof; and no wooden building shall be altered for a dwelling-house contrary to this provision.

¹ The remainder of this section, as it stood in the original act, and the 5th section of the same act, were repealed by stat. 1850, c. 280, § 2.

² Gen. Stats. chap. 26.

³ The stat. of 1860, c. 280, § 2, repealed stat. 1817, c. 171, §§ 1, 2, 3, 4, 5, 7, 8, 15; 1821, c. 26, 31; 1822, c. 16; 1829, c. 34; so much of stat. 1835, c. 139, § 2, as relates to South Boston and East Boston, together with § 5 of the same act.

BONFIRES AND KILNS.

ORDINANCE.

SECT. 2. If any person shall make any bonfire or other fire in any of the streets, squares, commons, lanes, or alleys, or on any wharf within the city, without the license of the board of aldermen, he shall be punished by a fine not exceeding fifty dollars.

SECT. 3. No person shall erect, make, or fire, or cause to be erected, made, or fired, within any part of the city, any brick-kiln, or lime-kiln, without the license of the board of aldermen, under a penalty of not less than one dollar nor more than fifty dollars, and a like sum for every week he shall maintain such kiln after notice to remove the same.¹

FIRE-ALARM TELEGRAPH.

STEAM FIRE ENGINE No. 1.

Located on Dorchester st. corner of Fourth, South Boston.

To be taken out on first alarm to the following boxes :—

- No. 121. Corner First and A streets.
- 123. Corner Broadway and Federal street.
- 124. Broadway, near C street (Police Station No. 6).
- 125. Norway Iron Works, Federal street.
